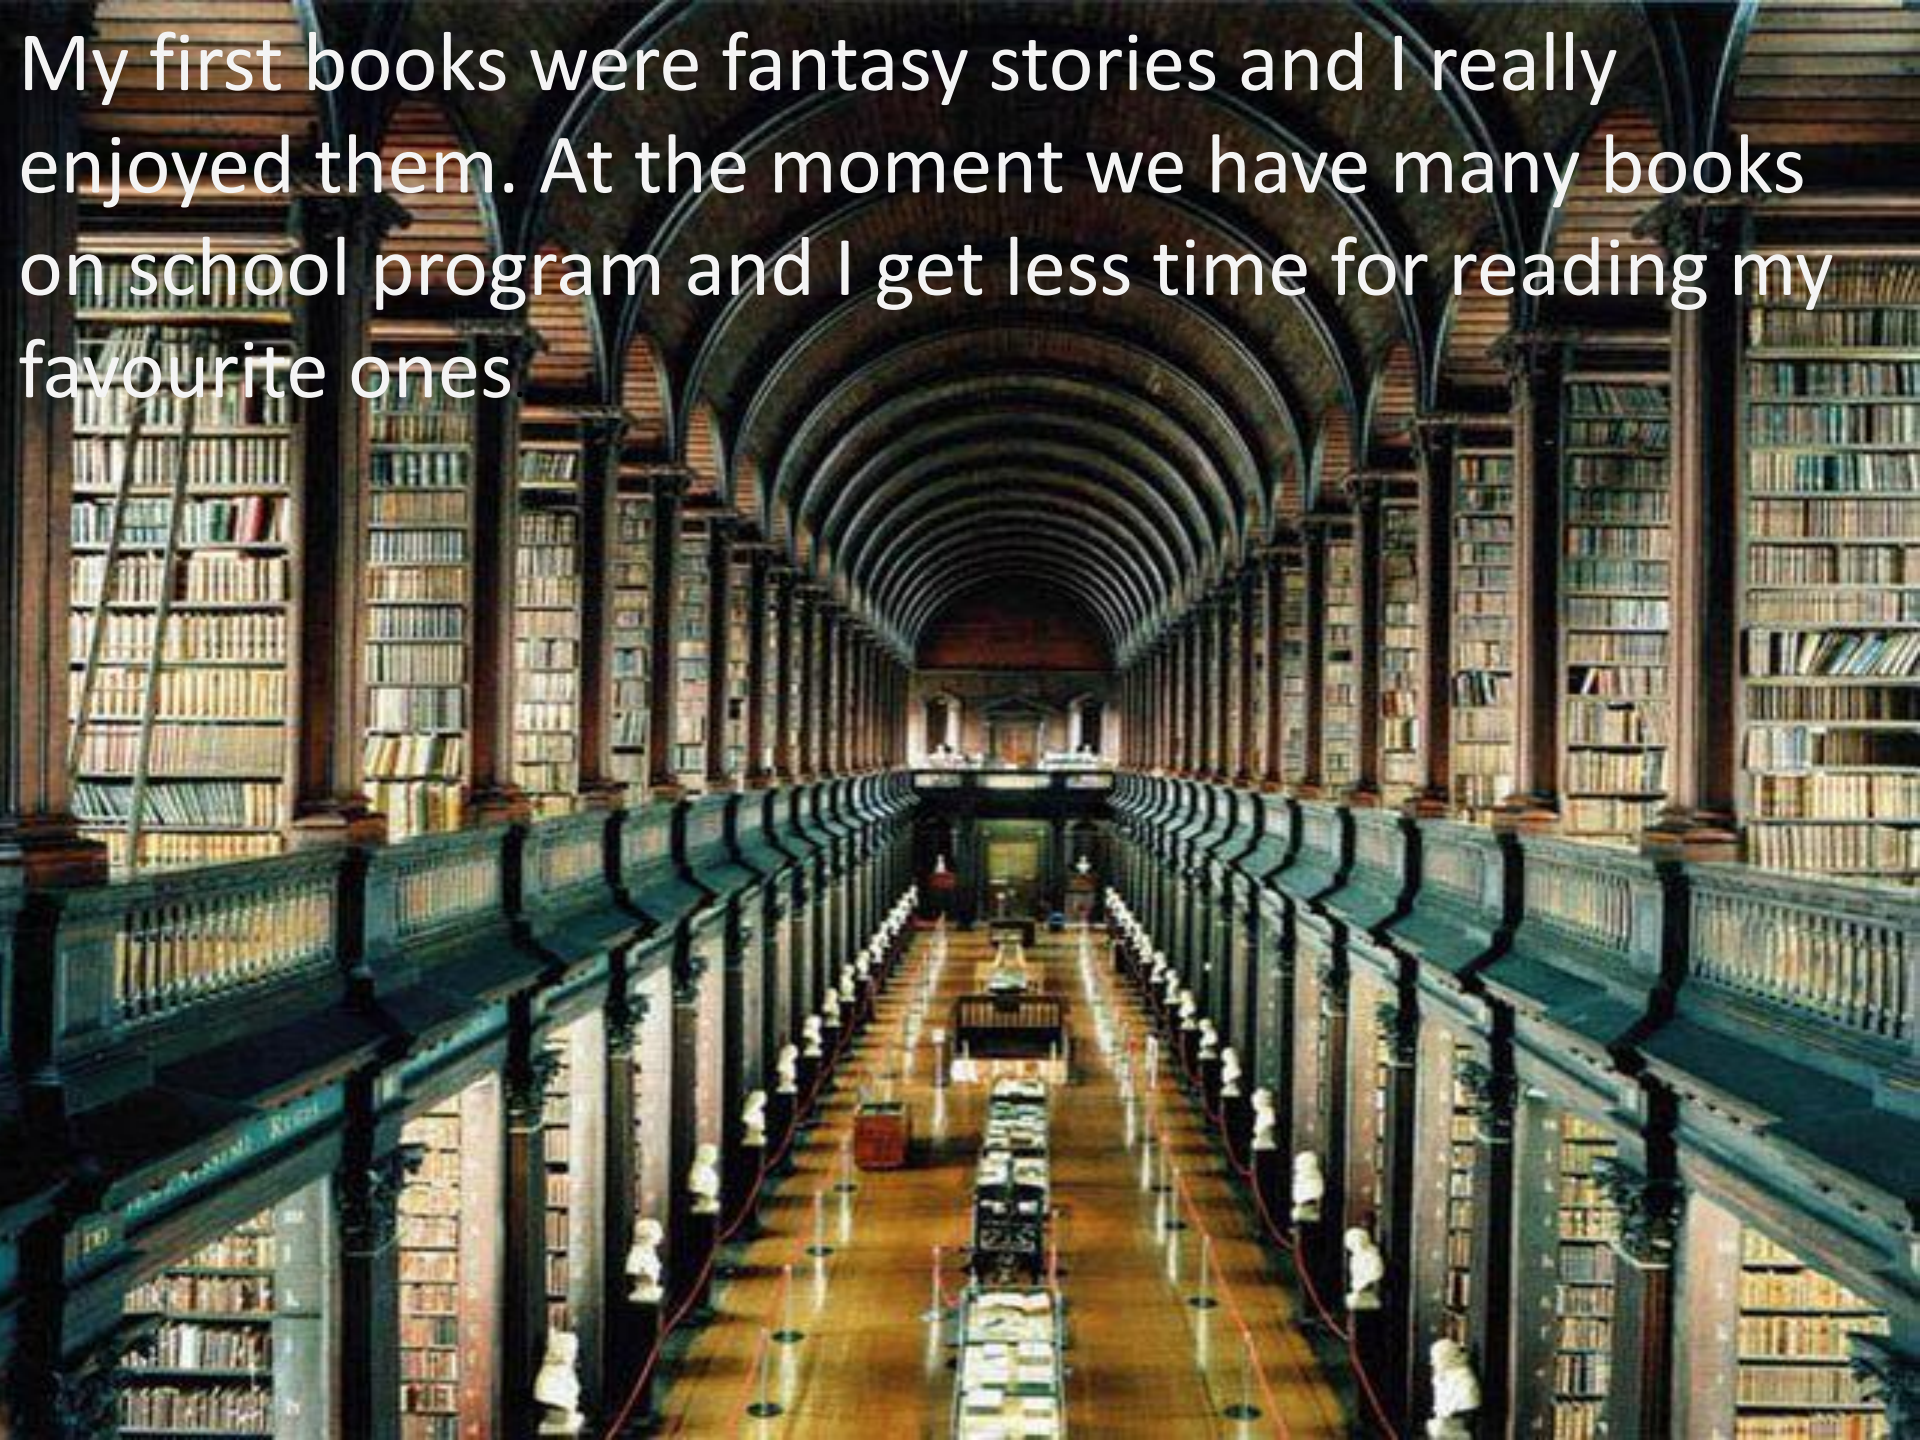
Books play a very important role in my life. I think that modern life is impossible without reading. The more I read, the more knowledge and experience I get.

I can’t say that all books are useful. Some are boring and pointless. I like both fiction and non-fiction books, but my favourite genre is detective stories.

This includes Sherlock Holmes and Hercule Poirot books. I started reading books when I was quite young, about 8 or 9 years old.



My first books were fantasy stories and I really enjoyed them. At the moment we have many books on school program and I get less time for reading my favourite ones

I can’t say that I don’t like classical literature. It is also quite good. I especially like Pushkin’s poems and Gogol’s short stories. Sometimes I also read various stories in English.

The main characters of the stories are a brilliant detective Sherlock Holmes, who can solve the most complicated cases, and his loyal friend Doctor John Watson. Sherlock Holmes always pays attention to every detail and can expose the craftiest criminals
