

My best friend

MBF

MY BEST FRIEND

- Friendship is one of the best things in life. Everybody needs a good friend's shoulder to cry on, or simply someone to share the joys and sorrows with. It isn't easy to find faithful and caring friends though
But I was lucky, I found a friend, her name is Lena.

- She has brown shoulder length hair, almond-shaped gray eyes and pretty face.

She has a very good character, she is funny and easy to communicate.

She loves to read manga, and listen to music

She dances well, so it is flexible.

- Lena and me friends with first class and since stick together.

- Her quality of each friends:

- Humor

- Support

- Respect

- The ability to listen.

- Devotion

I can discuss everything with my best friend.

When I walk into a room, she knows exactly what mood I'm in, what I need. If I ask for help or advice, she will give me a hand immediately and never leaves me at loss.

- I hope that we will stay true friends for a lifetime or at least for a very long time. My mum often tells me that friendship is like a tree. It means that under good conditions it will grow and become rather strong. As the years pass, the tree can stand firmer and firmer on the ground. The same happens with a long-term friendship. To form a strong union of friends one should give lots of love, patience, understanding and care. This way, true friendship can survive any difficulties.
