KAZAKHSTAN

A festive winter scene featuring a snow-covered landscape. In the foreground, a path leads through deep snow towards several houses. On the left, a white house with a porch is visible. In the center, a smaller white house with a gabled roof stands. To the right, a large, two-story red brick house with a prominent chimney and a window with a flower box is the focal point. The trees are bare and heavily laden with snow, and the entire scene is illuminated by warm, glowing lights, suggesting a holiday celebration. The text "Thank you! Very much!" is overlaid in a large, elegant, serif font in the upper center of the image.

**Thank you!**  
**Very much!**

The lesson is over. Good-bye!

Let's think:

What should we do to save the nature?

2. What shouldn't we do to save the nature?

Ex: We should grow flowers and water them.  
We should keep the environment clean and protect the nature.

We shouldn't pollute the water, air and soil.

We shouldn't kill animals
