

The story of my dissertation

Fulfilled the student of 1 course of magistracy:

Novikova Ekaterina

The theme of my thesis is as follows:
«The Difficulties of educational and methodical work of teachers on the development of professional competencies of students with hearing impairment».

РОССИЙСКИЙ ГОСУДАРСТВЕННЫЙ
ПЕДАГОГИЧЕСКИЙ УНИВЕРСИТЕТ
им. А.И. ГЕРЦЕНА

The head of my work is:

Balakireva Elfrida Viktorovna doctor of
pedagogical Sciences, Professor of the
Department of theory and history of
pedagogy RSPU. A. I. Herzen

The theme of the dissertation was determined by my professional activity, as I teach students with hearing impairment. The relevance of my topic is that under the new law, people with special educational needs have the right to study in any educational institutions, and teachers do not always know how to teach them.

The basis of my research I chose: St. Petersburg state budget special rehabilitation professional educational institution – College for disabled people "Vocational rehabilitation center", working under the leadership of the Committee On social policy of St. Petersburg

The subject of my work is the process of professional training of people with hearing impairment The object of my work are full-time students studying at the College for the disabled "Vocational rehabilitation center" at the address:
Volkovsky PR. d. 4

In my work, I investigate what difficulties arise for teachers who teach people with hearing impairment

In my work I want to present practical experience with this category of students and try to give recommendations to teachers who have difficulties in teaching deaf and hard of hearing people. And I will briefly describe what you need to know and what competencies should have a teacher training people with hearing impairment.

In the work I want to present practical experience with Wish success to all colleagues in writing a thesis.
