SPACE - RELATIVELY EMPTY AREAS OF THE UNIVERSE THAT LIE OUTSIDE THE BOUNDARIES OF THE ATMOSPHERES OF CELESTIAL BODIES.

Solar system

Solar system - planetary system that includes a central star the sun and all the natural space objects orbiting the Sun.

Milky Way

The first man in space

Yuri Gagarin - Soviet cosmonaut, the Hero of Soviet Union.

12 April 1961 year Yuri Gagarin became the first man in the history of the world, to make a flight into space.

The first woman in

space
Valentina Tereshkova, Soviet cosmonaut, the first woman astronaut in the world.

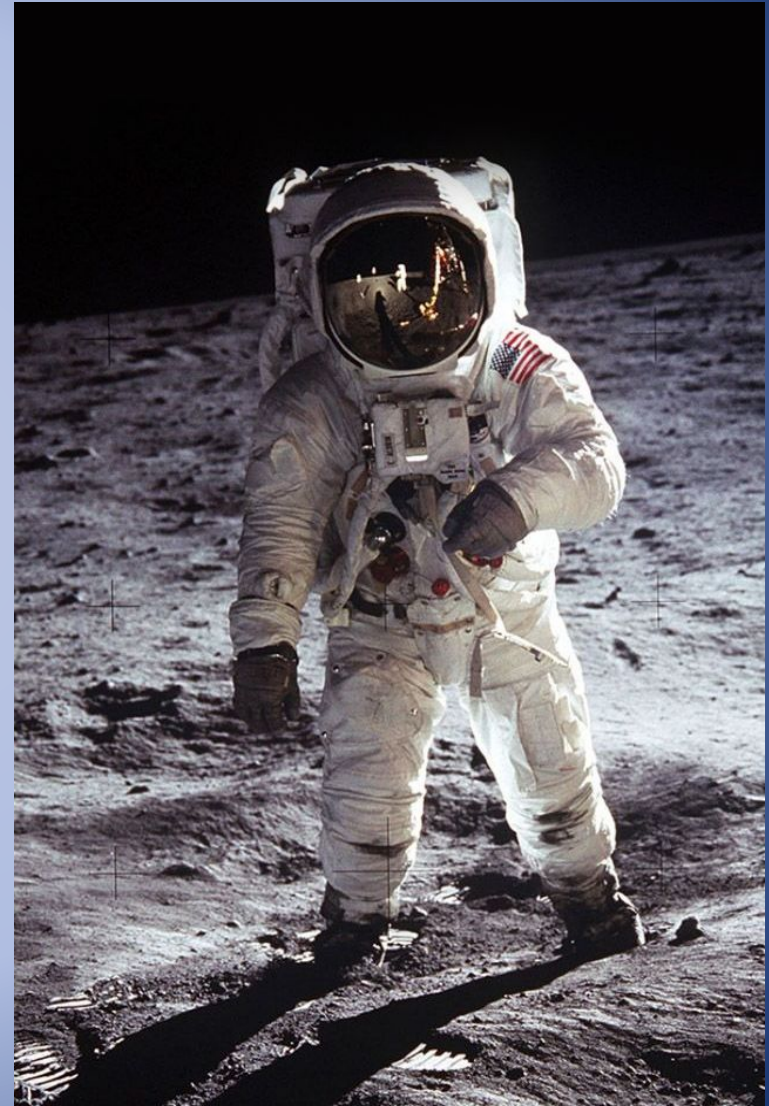

Cosmonautics Day

April 12 is the World Cosmonautics Day.

On this day, Yuri Gagarin first flew to space aboard the spacecraft «Vostok» - 1" from the cosmodrome «Baikonur» and the world's first orbital committed circled the planet Earth.

Space suit

The background is a deep space scene. In the upper right, a large, vibrant spiral galaxy with a bright yellow-orange core and reddish-pink outer arms is visible. To its left, a bright, white star with a four-pointed diffraction pattern shines. The lower portion of the image shows the curved horizon of the Earth, with a thin blue line of the atmosphere and a darker blue view of the ocean below. In the distance, to the right of the horizon, another planet, likely Earth, is seen as a small blue sphere. The overall scene is set against a dark, star-filled sky.

Thank you for your attention.
