

1- ACCESSORIES FEEL AND LOOK

Please check the accessories on the table and on the countertop

Now kindly compare them with the accessories in the
upcoming pages, do they look real?
Especially the bottle, cup of coffee, cheese, bowl, vegetables

<https://archicgi.com/portfolio-item/high-quality-architectural-renderings/>

2- LIGHTING

The ceiling color is white and the floor is grey (already sent a picture of flooring) , the lighting doesn't show the difference between both colors

color

Now please take a close look of the lighting and shadow on the wood flooring in the upcoming picture

Also take a look to the effect of lighting and shadow on the front wall and the wall on your right where you can see tree outside

<https://archicgi.com/portfolio-item/photorealistic-rendering-kitchen/>

3- FINISHING

The positioning of the oven + microwave from left and right side is wrong.
Also these items doesn't look real

Now please check the positioning and finishing of the oven in this pic

Both frames should be on the same level

Please check the skirting finishing it doesn't look realistic

Now check these 2 pics showing the effect , the color and shadow

4- COLORS

It looks fake because of the high contrast and the uniformity of colors.
You can't find a mass of black everywhere in real life.

Now please check the black color in this picture. It is the same product used in wall unit. Also check the lightning and the wall

5- WIDE ANGLE

The wide angle should start from the table on the left till the end of the bar on the right
on the right

Make the rendering angle wider to see the wine cooler and fridge with table in the same angle

Rendering Quality of wine cooler and fridge r similar to this one

5- YOUR SUGGESTIONS

Would you advise to make any
changment that will affect
positively the final result and make
it alive?
