VOLGOGRAD

It's stretches for almost 60 miles along the Volga. The administrative structure of the city is unlike other city of the world: Volgograd has 8 boroughs; 7 of them lie along the Volga, and only one of them stands about 8 miles away from the river bank.

The Square of Fallen Fighters is geographically the Central square of Volgograd.

The Mamaev Hill with the statue of Mother Russia is the Hallmark of Volgograd.
