What is a Newspaper ?

It is a paper printed and sold daily or weekly with news , advertisements , articles about political, crime, business , art, entertainment , sport events.

I will go on and on, says defiant Speaker

Speaker Defiant
The speaker has said he will continue to lead the House of Commons even if he is not re-elected as speaker. He said he would continue to lead the House of Commons even if he is not re-elected as speaker. He said he would continue to lead the House of Commons even if he is not re-elected as speaker.

Welfare mothers to be forced to work

Welfare Mothers
Welfare mothers are to be forced to work. The government has announced that welfare mothers will be required to work for a certain number of hours per week. This is part of a new welfare reform package. The government has announced that welfare mothers will be required to work for a certain number of hours per week.

FROM HISTORY OF NEWSPAPER...

In ancient Rome, announcement bulletins of the **Acta Diurna** government were made public by **Julius Caesar**. They were carved on stone or metal and posted in public places.

In China, early government-produced news sheets, during the late **Han dynasty** (second and third centuries AD). Between 713 and 734, the Chinese **Tang Dynasty** published government news; it was handwritten on silk and read by government officials.

The longest running British newspaper is *The Times* began in 1785.

John Walter was a founder of *The Times* newspaper, London.

Quality papers

More credible
Contain political, industrial, financial and cultural news

There are two kinds of newspapers in Britain

Tabloids

Less credible

Sensationalism

NEWSPAPERS ARE DIVIDED

Daily

Sunday

Published on every day of the week except Sunday

They are larger than daily ones

What is a radio?

The process of sending and receiving messages through the air, broadcasting programmes for people to listen to

People can

listen to music

get news

take part in talk shows

Who invented a radio ?

Nikola Tesla developed means to reliably produce radio frequencies, publicly demonstrated the principles of radio, and transmitted long distant signals.

On May 7, 1895 the Russian physicist *Alexander Popov* performed a public demonstration of transmission and reception of radio waves used for communication. This day has since been celebrated in Russia as "Radio Day"

Guglielmo Marconi was an electrical engineer and Nobel laureate known for the development of a practical wireless telegraphy system. In 1896, he was awarded a patent for radio with British Patent .
