Проверила: Дашкина Т.Г.

Acute bronchitis is inflammation of the bronchial tubes.

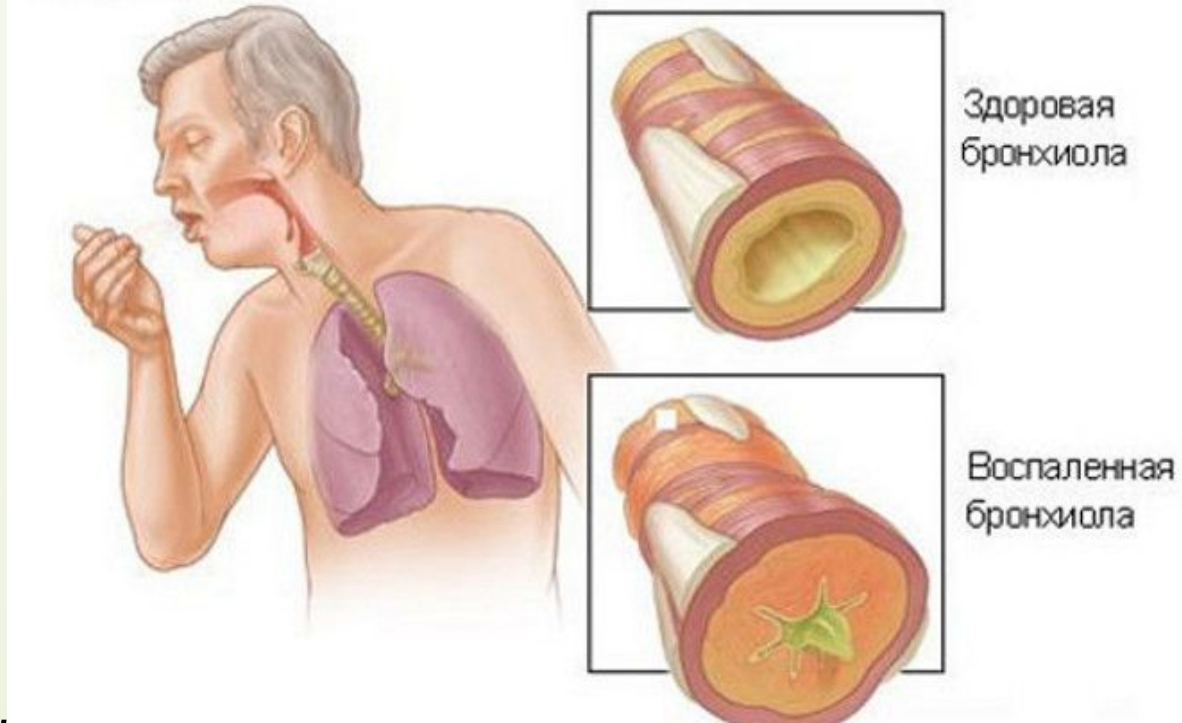

The most common cause of acute bronchitis is a viral or bacterial infection, but other causes may include irritants like tobacco smoke, air pollution, or chemicals.

Symptoms of acute bronchitis are:

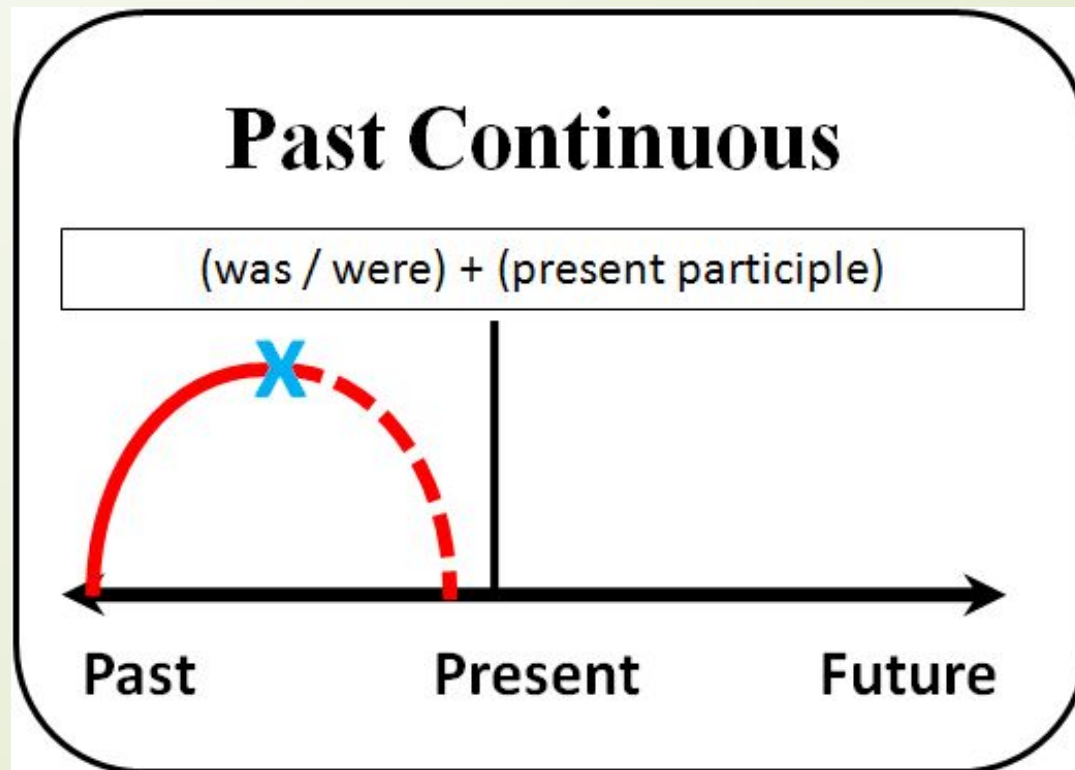

- cough,
- watery eyes,
- chills,
- headache
- sore throat
- watery eyes
- fatigue
- mild headache
- chills
- body aches

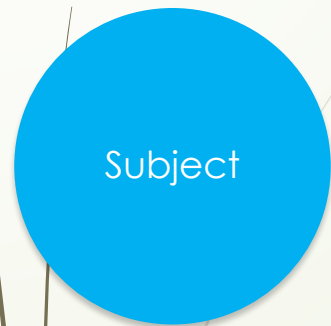

ОСТРЫЙ БРОНХИТ
