Topic **ITALY**

Our guest is
Zhenya Bosyakova
a fashion designer ,
head of the studio of
fashion and design
"New look", Bobruisk.

Zhenya is in love with
fashion and with Italy.

Three or four times a year
she lives and works in Rome.

It's not a secret that many of our ideas about other countries, especially if we have never been there, are based on stereotypes.

And at the beginning of our meeting each participant answered the question:

**“ What is Italy
for you? ”**

Italian Stereotypes – True or False

Zhenya told us about her favourite places in Rome.

This is the **Trevi Fountain**
in Rome.

An estimated 3,000 Euros
are thrown into the fountain
each day.

In 2016, an estimated US \$1.5
million was thrown into the
fountain.

Rome is extremely beautiful –
but like any big city it has its
not-so-pretty parts too.

Some people say that Rome is
rather a dirty city.

Drawings and graffiti on the walls in
Rome are the order of things.

Be especially cautious and keep your valuables closer to yourself.

In Rome, there are a lot of pocket thieves for whom tourists are a tasty morsel, so you should be more cautious in crowded streets and in public transport.

Often among such thieves you can meet children.

**We talked about
museums.**

**А вы знали, что в Италии
в музеи можно заходить и
с мороженым и с
животными?**

Картины Клода Моне.

Tastes differ
(О вкусах не спорят)

**This is a picture. It's
not a hole
in the wall.**

And, of course, we talked about **pizza, cafes and restaurants.**
