

Summer is a great time when you can enjoy the warmth and relax

At the beginning of the summer I had practice in camp «Polyanka». We lived in

wooden houses

We went on interesting excursions

In the evening they carried at the tasks given to us by the teachers

We collected some plants for herbarium

Of them:

Shepherd's Purse

MEADOW CLOVER

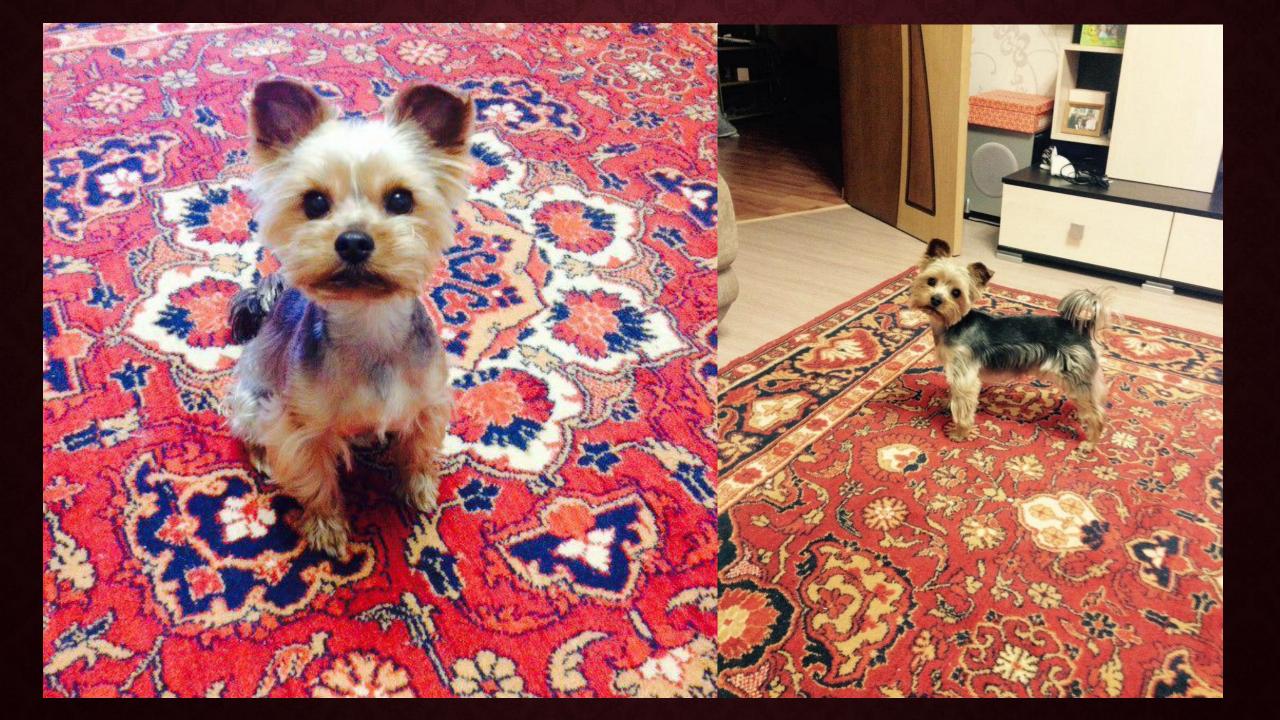

Then I returned to my village

I loved spent time with a my dog

I like to walk with him and play

I went to Moscow to my sister. We visited the park «Zaryadye»

And there met with my friends

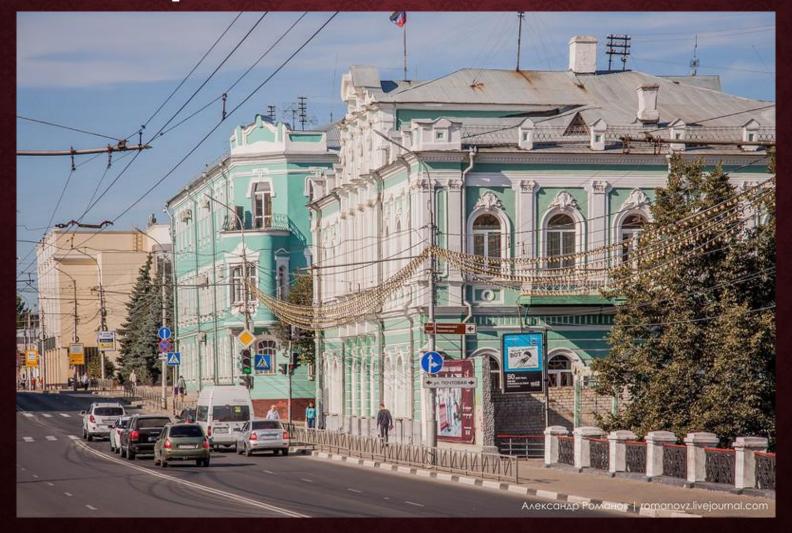

The remaining time I was busy with a bead weave

So imperceptibly the summer came to an and I left the village to the city

Hello study and new knowledge, and forgive carefree summer days

It was the best summer! I'll miss!
