

My summer vacation

**After a very difficult academic year, my vacation has come.
In July I was at home. I watched TV and surfed Internet.**

WAY HOME

The road takes about 9 hour, the ticket costs 3000 rubles

**You can
see what
happened
with me
after that.**

At the end of the month I went camping. And here my real summer vacations have begun! Our tents were in a real forest! It was a little scary to sleep at night.

While resting there was a lot of lack. Such as: mosquitoes, a hygiene problem, risk of catching cold and others.

High pines, sandy
beaches, pure
water, the cloudy
sky, clean and
fresh air.

But I forgot about
it, when I looked
around. This place
was very beautiful!

**Our camp was on the banks of the
river Lunha**

Every day I collected berries, went fishing, or boating. In our camp, we not only rested, but also worked. Every day we had different positions. Such as: Captain, cook, waterboy and chronicler.

At the end of August I finally came home, then back to Yakutsk

Thank you:)
