# Music in our life

There is music everywhere: at home, in a concert hall, in the park, at the seaside, in the forest and even in the street. Music is not only a combination of pleasant sounds. It is an art which reflects life.

# Music in our life

**Music reflects people's ideas and emotions.**

**In this world, filled with conflicts, tragedies, joys and hopes, music strives to speak to people about what is most important, urgent and poignant.**

# Music in our life

Music in the lives of different people is different: some compose music, others play music, and others only listen to it. A lot of people who cannot play any musical instrument love to listen to music either at home or at a concert.

# Music in our life

**Different people like different kinds of music.**

**You may prefer pop or rock music, country or folk music, classical music or jazz.**

**LINKIN PARK**

I like this group because of  
good texts and unusual musical  
decisions.

This group was formed in 1996.  
They released 9 albums.
