2

$1+9$

$2+8$

$3+7$

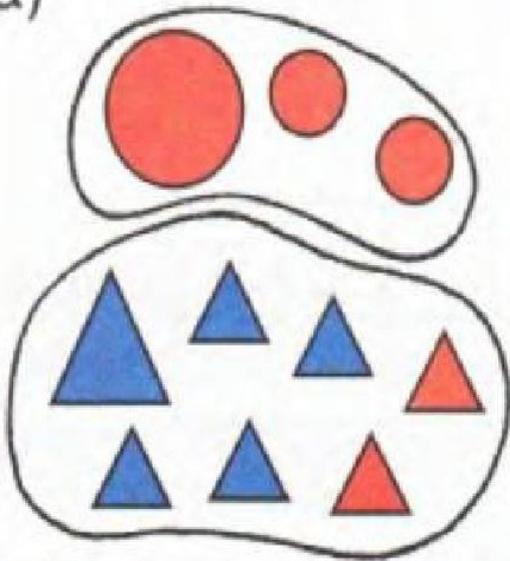

$4+6$

$5+5$

1

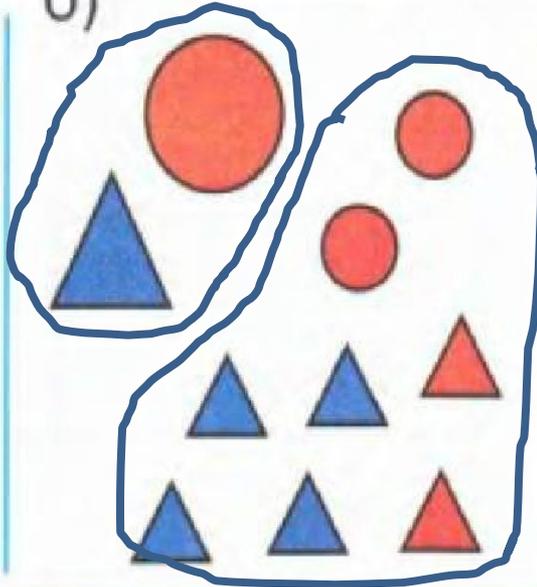

$3 + 7$

a)

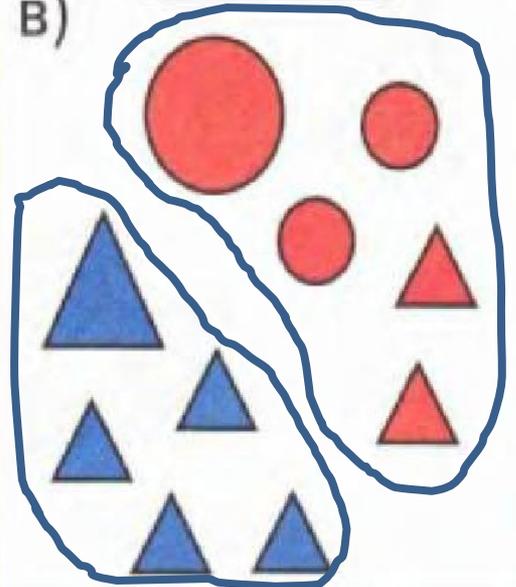

$2 + 8$

б)

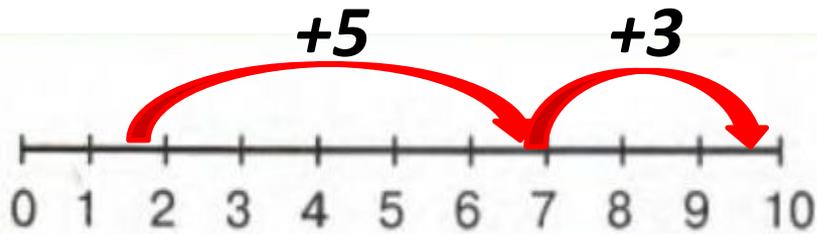

$5 + 5$

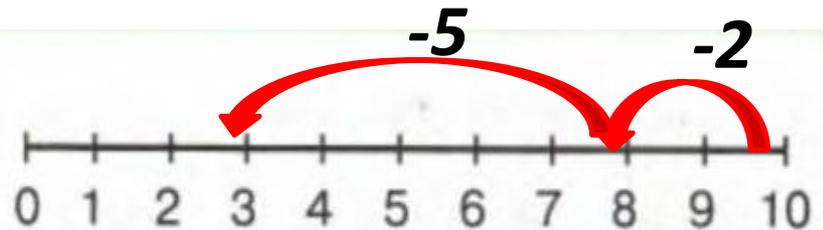

в)

4

$$2 + 5 + 3 = 10$$

$$10 - 2 - 5 = 3$$

$$\underline{x} + \underline{4} = \textcircled{10}$$

$$X = 10 - 4$$

$$\underline{X} = \underline{6}$$

$$6 + 4 = 10$$

$$10 = 10$$

Ответ: 6.

б)

$$\textcircled{10} - \underline{x} = \underline{1}$$

$$X = 10 - 1$$

$$\underline{X} = \underline{9}$$

$$10 - 9 = 1$$

$$1 = 1$$

Ответ: 9.

в)

$$\textcircled{x} - \underline{10} = \underline{0}$$

$$X = 10 + 0$$

$$\underline{X} = \underline{10}$$

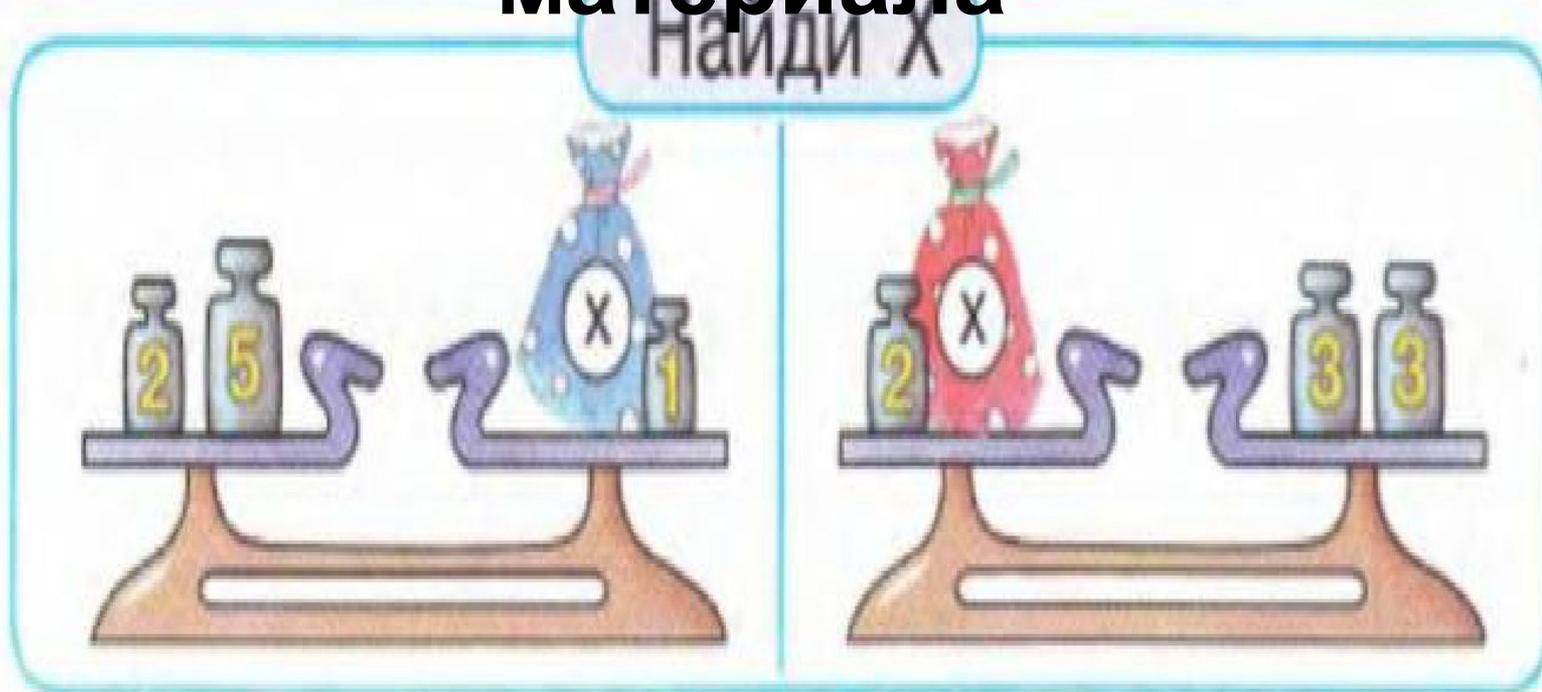

$$10 - 10 = 0$$

$$0 = 0$$

Ответ: 10.

# Повторение материала

8

$$X = 6$$

$$X = 4$$
