Заявление на мобильность

Dear Sir/Madam,

My name is Alina Zhupley and in this letter I would like to express my interest in studying at the University of Economics, Prague during fall semester 2017-2018.

There are several reasons why I decided to apply for studying at University of Economics. Firstly, it is known as one of the best business school in Central and Eastern Europe. So, I believe that profound knowledge and advanced skills that I might gained there will enable me to make a successful career in my professional field. Secondly, University of Economics has a number of classes on Logistics, what is very important for me. And last, but not the least, is student life in university and different extracurricular activities.

I believe that I am appropriate to be an exchange student for several reasons. Currently, I am a third-year student of Higher School of Economics, at the Department of Logistics and Supply Chain Management. I am among the first 10% of best students in annual student rating. I think I could gain such results not only because of my perseverance and hard-work but also because of my deep interest in management and logistics. Last year I took part in Annual Students' Scientific Conference "New trends in Management and Logistics", and in the international workshop "Health Economics in Russia: past, present and future". Moreover, I had 10/10 for my research work "Intelligent transport system in the city". Also, I have different classes on European Union due to my minor program "European space: politics, economy, culture", so it will be interesting for me to spend a semester in one of European country not as a tourist, but as a student of one of the leader university! Besides, I have part-time job as an assistant in department of import, so it gives me an opportunity to use my theoretical knowledge in practice.

Of course, I pay my attention not only to studying but also to different students' activities. I was a participant of "Debate club" and spend a lot of time on volunteer work both at HSE and in different international events, for example Ice Hockey World Championship 2016. Also, I was one of the founders of HSE Buddy Club and now I am one of its heads. I spend a lot of time working there, because now we are planning to join Erasmus Student Network. I know that University of Economics also has Buddy system, so it is very interesting for me to look on how it works in other university. I would like to share my experience and to take the best from the University of Frontomics' system.

Considering my academic performance so far and my desire to enrich my own and others' knowledge in management and logistics, I am convinced that I will be a valuable addition to the program. I hope to be given this chance, as I am confident that I am capable of meeting and even exceeding your expectations.

Your sincerely

Alina Zhupley

B

te may concern.

Let me briefly introduce myself. I am Andrey Bochkarev, Doctor of Sciences, Academic supervisor of educational program Logistics and Supply Chain Management. I have been teaching students for more than 20 years and I have been at Higher School of economics since 2013.

I am writing this letter of recommendation for Alina Zhupley, a third year student of the Department of Logistics and Supply Chain Management. She has been my student during past three years and I got to know her well during this time. I was pleased to see that Alina has gained success not only in learning process, but also in extracurricular activities over these years.

First of all, I would like to emphasize Alina's success in studying process. During three years of studying she has never had marks lower than seven (good). She is always among the first 10% of best students in annual student rating. Alina consistently gets excellent marks on her homework and tests and shows excellent oral and written communication skills. Moreover, she is very hard-working, so she meets all challenges with success. Alina showed excellent research skills while writing her term paper last year and got 10/10 for it. As one of best our students, she had an opportunity to learn the second language for free and she didn't miss that opportunity. Now she learns German as the second language. I think all these facts demonstrate that Alina is really interested in studying and tries to improve and expand her knowledge and professional skills. One more interesting fact is that since October 2016 Alina has been an assistant at the department of import purchase in one of Russian biggest retail network "Lenta" which clearly emphasizes that she tries to apply theoretical knowledge into practice even though she hasn't obtained her degree so far.

Besides being motivated, persistent and hard-working Alina is also a very friendly and easy-going person. She is one of chief buddy in HSE Buddy Club. She was one of its founders and under her control HSE Buddy Club has become a really prosperous student organization. Our university is proud of having such an organization. Moreover, Alina often helps as a volunteer during different conferences like Open Days, open lectures and other events for people visiting the university.

I am sure Alina's abilities and determination will continue to grow and this international experience will help her to gain new knowledge in the sphere of management and logistics. Also studying abroad is absolutely necessary for her as for a future leader and high-qualified professional. I strongly believe that both Alina and Prague University of Economics will benefit from this collaboration.

Yours sincerely,

Professor Andrey Bochkarev
