# TEXT

And we all know that the main reason why the Earth **suffers** is us. We pollute the air, the water; cause the extinction of animals and plants. However, we are still capable of saving our planet and species we share it with.

Our planet is in danger. It becomes more and more polluted every year. In addition, the **ozone layer** becomes **thinner** and this may lead to many **phenomena**, like **acid rains**, that may destroy our planet and our lives.

There are several measures we may **implement**. First of all, we should not throw any **garbage** and all countries must work the system of recycling garbage out. If we all get used to **sorting** it, we will simplify the process of recycling.

In addition, we may use modern technologies **to invent** a new kind of petrol to substitute oil with it. We can also try to use cars less and walk or ride a bicycle to move around the city.

In order to save animals, we must protect them better from poachers: build national parks, organize special groups and **funds** which will take care of animals and find investors **to supply** our wild neighbours with food. We should also **breed animals** not to let any species **disappear**.

Moreover, more trees, bushes, flowers must be planted. They clean the air and serve as a home for many animals, birds, and insects. Summing up, we have the power to make the Earth a better place.

# Exercise

## Choose the correct word or phrase

1. In addition, the **ozone layer** becomes **thinner** and this may lead to many **phenomena**, like \_\_\_\_\_, that may destroy our planet and our lives.

A) acid rains  strong winds  harmful substances

2. And we all know that the main reason why the Earth **suffers** is \_\_\_\_\_.

cars  B) us  acid rains

3. First of all, we should not throw any **garbage** and all countries must work the system of \_\_\_\_\_ out.

recycling paper  reusing water  C) recycling garbage

4. If we all get used to **sorting** it, we will simplify the process of \_\_\_\_\_.

reusing  reducing  C) recycling

5. In addition, we may use modern technologies **to invent** a new kind of \_\_\_\_\_ to substitute oil with it.

A) petrol  oil  fuel

6. We should also \_\_\_\_\_ **animals** not to let any species **disappear**.

to take care  B) breed  sell

7. More trees, bushes, flowers must be planted, because they clean the air and serve as \_\_\_\_\_ for many animals, birds, and insects.

for clean the air  for beauty  C) a home

# Question

**Why our planet is in danger?**

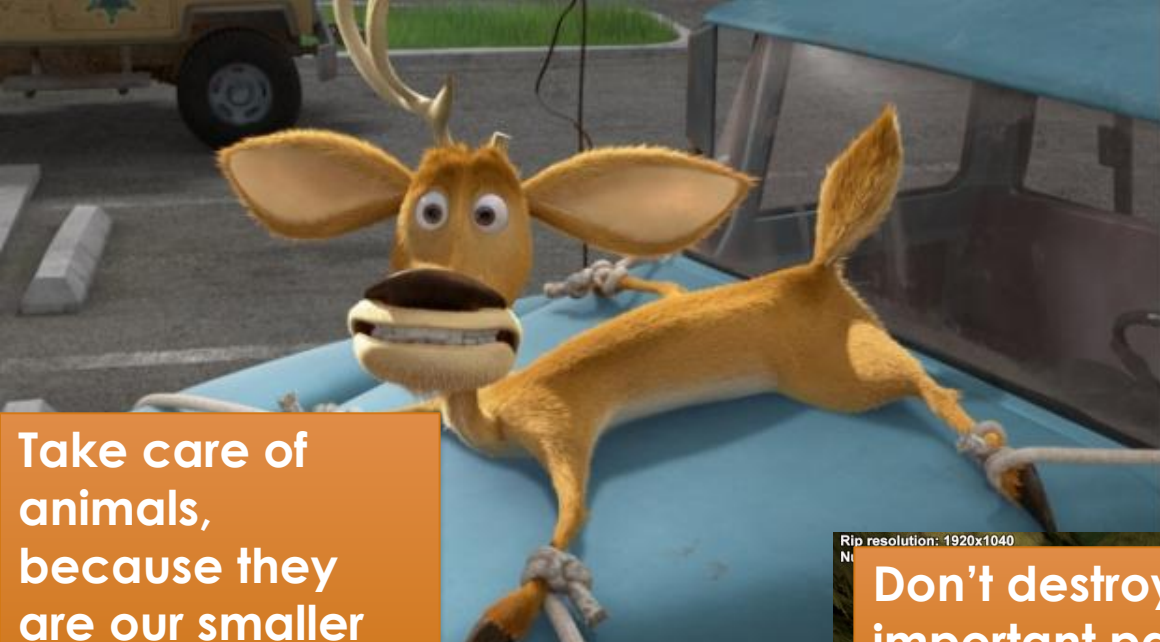

**What do you know about: reduce, reuse, recycle?**

**Why our planet continues to be polluted and why a lot of animals suffering from this?**

**Why the ozone layer is destroying?**

**What can we do to save lives of animals?**

**What can we do for our planet to stop pollution?**

Take care of animals, because they are our smaller brothers!

# THE END

Change your attitude to nature!

Rip resolution: 1920x1040

Don't destroy forests, they are an important part in lives of animals and people!

Don't pollute the water environment, we want to see the third part of "Finding Nemo"!
