Nobel Prize

Nobel Alfred Bernhard

- A. Nobel was a Swedish chemist and inventor.
- He was born in Stockholm in 1833.

Alfred Nobel (1833-1896) was born in Stockholm, Sweden, on October 21, 1833.

A Merchant of Death?

- He invented dynamite in 1867 and a smokeless gunpowder in 1887.
- He built a network of factories to manufacture dynamite, and corporations to produce and market his explosives.
- His worldwide interests in explosives brought him an immense fortune.
- He was labeled "a merchant of death"

Alfred's mother, born Andriette Ahlsell, came from a wealthy family
