LUBER FINER
BUILT TO DO MORE®

MXM NANO TECH™ AIR FILTER

LUBER-FINER
BUILT TO DO MORE®

WIN THE WAR AGAINST DUST

REDUCE ENGINE WEAR AND DAMAGE
THROUGH SUPERIOR TECHNOLOGY.

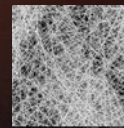

MXM

NANO TECH™

STANDARD CELLULOSE MEDIA

Gaps between cellulose fibers are large, allowing contaminants to deeply penetrate the media.

LUBER-FINER® NANOTECH MEDIA

Gaps between nano fibers are small, capturing more contaminants on the surface media layer.

- Complies with OE warranty specifications
- Superior overall efficiency of 99.99%*

* Tested per ISO 5011 model LAF1849MXM

EXTREME CLEAN HD™ CABIN AIR

Extreme Clean HD™ Premium Cabin Air Filters offer the power of leading disinfectant products to provide a safer, more ergonomic driving environment.

- Unique dual action of Arm & Hammer™ Baking Soda with activated charcoal
- Can remove up to 98% of road dust and pollen (as small as 5 microns*) from incoming cabin air, offers driver better quality air in the cabin
- Helps maintain proper air flow for the HVAC system

** Road dust and pollen particles ranging in size from 5-500 microns*

ARM & HAMMER® and the ARM & HAMMER Logo® are registered trademarks of Church & Dwight Co., Inc., and are manufactured and sold by Champion Laboratories, Inc. under license.

TIME RELEASE TECHNOLOGY (TRT™)

TRT™ Lubrication Filters utilize time release technology to keep your oil in prime condition as long as possible – increasing oil life span and change intervals.*

- Provides steady release of additives over time
 - Over base detergents – neutralize oil acidity
 - Anti-oxidants – limits oil oxidation
- Impedes the degradation of oil as measured by Total Base Number (TBN)
- Reduces maintenance costs
- Extended oil drain cycles
- Less downtime

Preferred solution for largest fleet in North America

Consistent release of oil conditioning additive over

40,000
MILES

based on over two million miles of fleet field study

** Any decision to extend oil drain intervals must be based on oil analysis and adherence to OEM criteria for acceptable oil operating properties. Operating properties may include, but are not limited to, TBN, soot, viscosity and fuel dilution.*

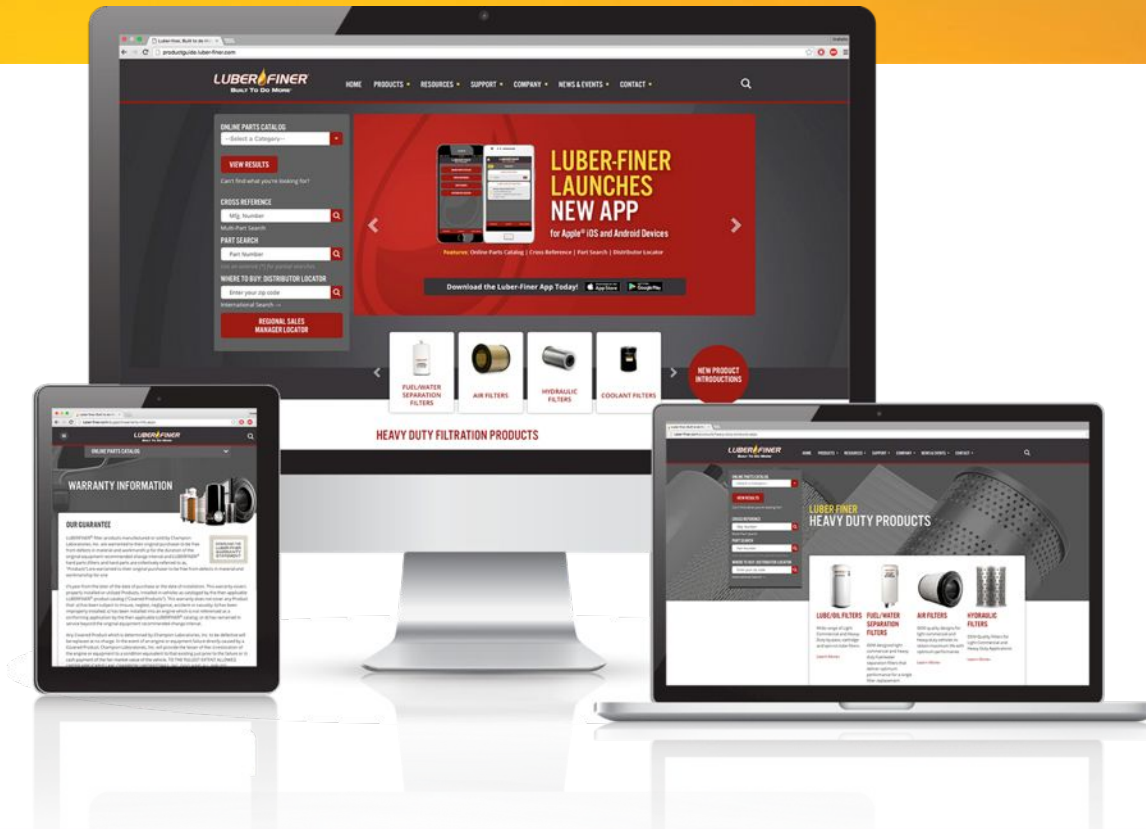

A DIGITAL ADVANTAGE

- Optimized for ease-of-use on any device
- Simplified specification through an online parts catalog
- Browse and search a growing collection of Luber-finer® resources

Our Vision: Champion of the Extra Mile

Our mission is to serve our Customers by launching new products, providing the most efficient solutions, while delivering the best value as the Filtration supplier of choice. Effective business processes, engaged employees and strong customer relationships are the keys to success in executing our mission. To achieve this we are committed to:

Customer Satisfaction:

- Provide our customers with filtration products and services that meet or exceed customer requirements.

Continuous Improvement of our Management System:

- Maintain a management system that is compliant to IATF 16949 and ISO 90001.
- Set and review performance objectives to meet our business goals.
- Assess our management system on a consistent basis for robustness.
- Demonstrate improvement in effectiveness of our management system processes.

Employee Empowerment

- Equip our employees with training, tools and support to achieve our business and quality objectives.
- Empower our employees to use their skills and talents to promote Continuous Improvement.

Comply fully with all applicable laws, regulations, and other requirements designed to protect safety, health, and the environment wherever we operate around the world. Create and maintain a safe and healthy working environment for all colleagues, contractors, and guests.
