Открытый урок английского языка

Четверикова Галина Александровна
Преподаватель английского

языка

ВВОДНАЯ ЧАСТЬ УРОКА

□ Greetings

□ T: Good morning!

□ S: Good morning!

□ T: Glad to see you!

□ S: Glad to see you too.

□ T: Sit down, please!

□ T: Let's make our brains work. Dry your ears, tap your tip fingers on the desks (данные упражнения делают для активации работы головного мозга).

□ Phonetic exercises

□ T: Repeat after me.

□ Heat sink, RAM, expansion card, processor, hard drive, motherboard.

ПРОЕКТНАЯ ТЕХНОЛОГИЯ

My future profession

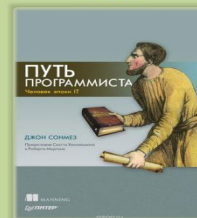

At school I got into the habit of reading a lot .

But the older I grew, the more definite my tastes in books became.

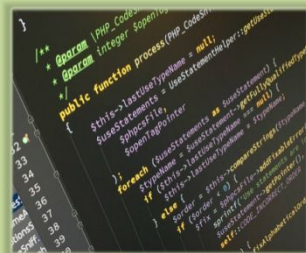

I took to reading technical books about computers and everything connected with them

At last I decided to be a computer programmer. So I entered Likino-Dulevo Polytechnical college.

After computer engineers and system analysts design software programs, computer programmers write them.

Programmers also work on updating, modifying , expanding and repairing existing programs

Job respects are excellent for well-educated programmers who are familiar with the latest technology.

Marketing, sales, technical resources, logistical and technical support are all possible career options for programmers.

I think I shall make a good programmer.

Thank you for your attention.

Answer the question:
What career options are possible for programmers?

ПРОЕКТНАЯ ТЕХНОЛОГИЯ

Why do we learn English

English helps us to explore the world

We learn more about different countries and their traditions

We can communicate with people who don't know your native language

English is the language No.1 in the Internet and in high technology

English helps us to become good specialists

We need English very much because our college has international cooperation with students from

Finland

THANK YOU FOR ATTENTION

Answer the question.

Why do we learn English?

ИНФОРМАЦИОННО-КОММУНИКАЦИОННАЯ ТЕХНОЛОГИЯ

THE INTERNET

The internet is considered to be one of the most important inventions of the 20th century.

It is a cheap and reliable source of information.

You can also send documents all over the world.

The internet stands for international network of computers that are linked together to exchange information.

The computers are joined through high-speed connection.

Thank you for attention

Correct these statements:

1. The internet is considered to be one of the most important invention of the 19th century.
2. The internet stands for local network of computers.

РАБОТА С ЛЕКСИКОЙ

a) Translate the words into Russian(лексика по теме урока)

b) Work with cards.

Match the words (1-6) with the definitions (A-F).

- | | |
|-------------------|---|
| 1) heat sink | A) a slotted board with circuits and ports |
| 2) RAM | B) a short term, quick memory source |
| 3) expansion card | C) a part used to cool the processor |
| 4) processor | D) a part used to store large amounts of data |
| 5) hard drive | E) a part used to increase a computer's functions |
| 6) motherboard | F) a part that completes tasks for the computer |

(Бланк для заполнения)

1	2	3	4	5

ПИСЬМО

- Write a word that is similar in meaning to the underlined part.
-
- Spinning blades keep the computer from overheating. f _ _
- The electrical source directs power throughout the computer. _ _ w _ r _ _ p p _ _
- Joey purchased a protective bag for his computer. c _ _ _
- Can the coded disk reader play DVDs? d _ _ _ d _ _ v _ _

ЧТЕНИЕ

- Read the text in turns and translate.

□

- Step #1

- First, gather you parts. These include a motherboard, power supply, processor, case, heat sink, fan, RAM, expansion cards, hard drive, and disk drive.

- Step #2

- Next, Attach the motherboard to the case. Then, connect the processor to the motherboard's primary socket.

- Step #3

- Attach the heat sink and cooling fan to the processor.

- Step #4

- Insert the RAM card into an open memory slot. Put any expansion cards into the expansion slots.

- Step #5

- Connect your hard drive to the motherboard and power supply.

- Step #6

- Close the case and connect the power supply.

□

КОНКУРС (2 КОМАНДЫ)

- **Be devided into two teams. Put assembly instructions in correct order(разрезныекарточки).**
- **(Кто быстрее соберет, тот победитель.Проверить друг у друга.)**
- Step #1
- Attach the heat sink and cooling fan to the processor.
- Step #2
- Insert the RAM card into an open memory slot. Put any expansion cards into the expansion slots.
- Step #3
- First, gather you parts. These include a motherboard, power supply, processor, case, heat sink, fan, RAM, expansion cards, hard drive, and disk drive.
- Step #4
- Connect your hard drive to the motherboard and power supply.
- Step #5
- Close the case and connect the power supply.
- Step #6
- Next, Attach the motherboard to the case. Then, connect the processor to the motherboard's primary socket.

АУДИРОВАНИЕ

АУДИРОВАНИЕ

a) После первого аудирования упражнения на T or F.

b) Listen again and complete the conversation in the cards. Then work in pairs and act out the dialogue.

Support Specialist: Technology Support, Ivan speaking. How can I help?

Customer: I have an old 1 _____

Support Specialist: Okay. Unplug the connection to the power supply first. Then disconnect the 2 _____ cable.

Customer: Which one is the 3 _____

Support Specialist: It's the smaller black box in the corner.

Customer: I'm 4 _____ both. What's next?

Support Specialist: Next, take out the two small screws. They fasten the hard drive to the 5 _____

Customer: I see, and then it slides out. Thanks!

ЗАВЕРШЕНИЕ УРОКА

Homework(записано на доске) Выучить пошаговую инструкцию по сборке системного блока компьютера.

Reflection(ответы на вопросы преподавателя)

- T:** 1. What have you learnt today?
2. Was it interesting at the lesson? Why?
3. Was it easy to work at the lesson?

Farewell greetings

T: The lesson is over. Good bye. See you.
SS: Good bye.

**СПАСИБО
ЗА
ВНИМАНИЕ**
