I like my bedroom best because it`s a very bright room. It gets a lot of sunshine. It has got a table and I can sit and work at the table with my computer. And there is a fireplace in my room. It doesn`t work but it gives the room the atmosphere of a real British house. What is my house for me? Oh, my house is my home , isn`t it? It`s a place where I can relax and rest. I can invite guests there. It`s a pleasant place to be!
