

Magazines in our life.

- *Newspapers and magazines play a very important part in our life. Practically there is no family that does not read them. We can learn many things from newspapers and magazines. Perhaps that is why many years ago an American humorous writer said: “All I know is what I see in the papers”.*

- We'll have to say that newspapers help us in many ways. There are a lot of different kinds of newspapers in our country. One can buy them practically everywhere.*

- *It is impossible to read all the newspapers and magazines. Everyone has favourite ones. I think every teenager can find some useful information in them. For example, about fashion, art, different news and so on.*

- *My favourite magazine is “Marusya”. We can read almost about everything in this magazine. There are articles dealing with teenagers’ problems , life of favourite actors and singers and horoscopes.*

- *We can find many interesting things there. We can read some useful pieces of advice, some stories about our life, and so on.*
- *There are puzzles and tests there.*

- *“Marusya” is one of the most interesting magazines to my mind.*

- **It's great that there are so many magazines for the youth.**
