

IOO CONCRETE STEPS

Modern state for all.

Project done:

By the student of the Faculty of International Relations
group 305 Nurgisaeva Aizhan

Notion

- ▣ **The 100 concrete steps set out by President Nursultan Nazarbayev to implement the five institutional reforms (20 May 2015)**

Main Ideas and aims

- ❑ **Five institutional reforms:**
 - ❑ Creation of a modern and professional civil service
 - ❑ Ensuring the rule of law
 - ❑ Industrialization and economic growth
 - ❑ A unified nation for the future
 - ❑ Transparency and accountability of the state

1 Item

- Reforming recruitment to the civil service. Recruitment to the civil service must start from junior positions
- 2. Recruitment and promotion must be based on a competency-based approach and merit.

2 Item

. Improvement of the justice system to ensure citizens have access to justice. Transition from existing five-level justice system (first instance, appellate, cassational, supervisory and second supervisory) to a streamlined three-level system (first, appellate, cassational).

Ensuring an improved balance between prosecution and defense in courts by gradually transferring to the judge the authority to authorize investigations, which limit constitutional rights of citizens. Ensuring police transparency by establishing public councils, which examine citizens' appeals against actions by police officers who violate ethical standards. The status and mandate of public councils will be enshrined in the legislation.

3 ITEM

1. Privatising agricultural land in order to improve its efficient use. Introducing amendments to the land code and other legal acts.

8. Implementing the “single window” principle for exporters and importers during customs procedures.

Development of the electronic declaration system to enable the automated clearance of goods and reduction in the number of documents needed for export and import and their processing time.

39. Integrating customs and tax systems. To ensure proper taxation, importers will be tracked from the moment goods enter Kazakhstan until their sale.

40. Introducing “Post Factum” mode of the custom clearance. Providing participants an opportunity to produce goods prior to the submission of declaration for goods.

Identity and Unity

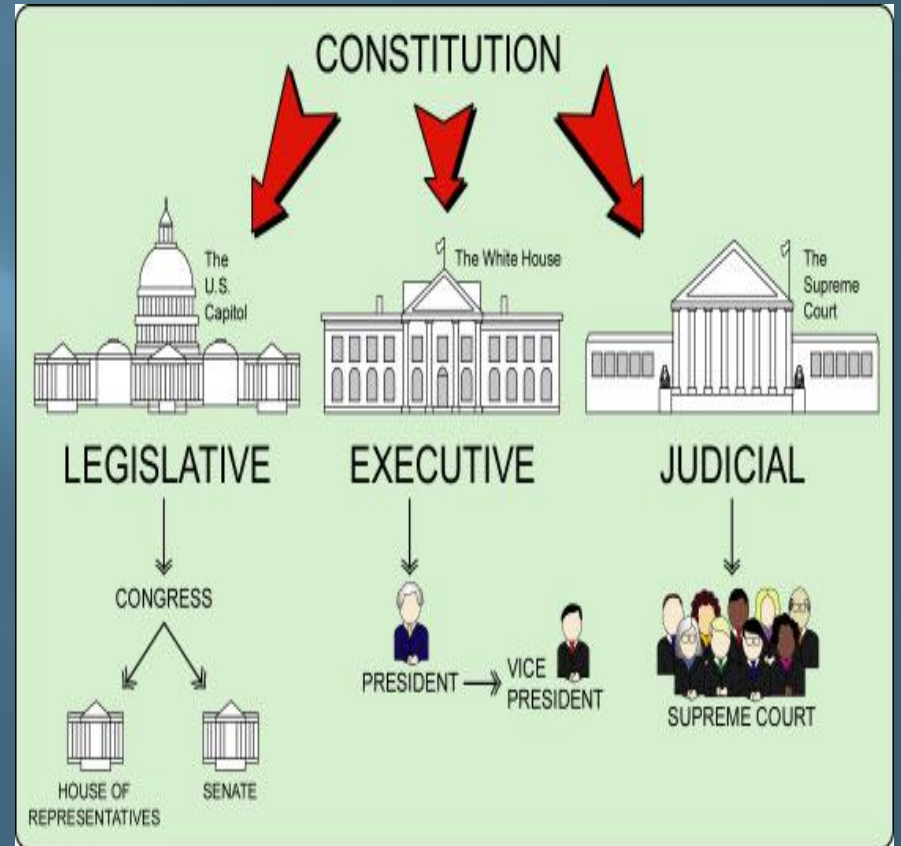

- ▣ . Development and implementation of the national project “Nurly Bolashak” (Bright Future). Introducing values of the Mangilik El (Eternal Nation) into the current education programs.
- ▣ 90. Information support and promotion of the implementation of five institutional reforms as well as Kazakhstan’s identity in mass media, the internet, new-generation media, and social networks.

5 Item

- Creating a results-oriented state governance system with standardized and minimal procedures for monitoring, assessment and control. A disciplinary oversight system should be based only on achieving stated target. All procedural tasks and interim oversight should be abolished. State agencies will have independence in their activities aimed at achieving the set targets.
92. Establishing a reduced state planning system, decreasing the number of state programs, abolishing sector programs by integrating them into existing state programs, as well as into strategic plans of state agencies. Redesigning strategic plans and regional development programs.

ESTABLISHING AN ACCOUNTABLE STATE

IMPLEMENTATION MECHANISMS

- The National Modernization Commission under the President is established. It has five working groups, which include national and foreign experts. The national commission should implement five institutional reforms on a step-by-step basis. It will ensure effective discussions between state agencies, the business sector and the civil society. The national commission should adopt conceptual decisions and define concrete action plans. Its proposals will be approved by the President of Kazakhstan
