

Alekseevich Gagarin!!!

Executed:
Vitinbek I.V.
Kurbatov D.A.
Group D-27

55 years he is first!!!

12 April 1961 in Soviet Union the first in the world spaceship is placed in an orbit round Earth is a companion "East" with a man onboard. By the Pilot-cosmonaut of spaceship - companion "East" is citizen of Union of Soviet Socialistic Republics pilot major Gagarin Yuriy Alekseevich!

Historical words of Ю.А.Gagarin.

Облетев Землю в
корабле-спутнике, я увидел,
как прекрасна наша планета.
Люди, будем хранить и приумно-
жать эту красоту, а не разру-
шать её!

Г. Гагарин

From preliminary data, the period of appeal of ship-companion round Earth makes 89,1 minutes; the minimum moving away from a terrene (in a perigee) is equal to 175 kilometres, and maximal distance (in an apogee) makes 302 kilometres; angle of slope of plane of orbit to the equator 65 degrees 4 minutes.

DREAM About SPACE Yuriy Alekseevich Gagarin wrote to the command a report about that wants to become a cosmonaut. By that time he was a pilot-destroyer. Flew on jet planes did not know that alike statements to Moscow were sent by many people. It was set up the special committee, that had to choose the healthiest, most reliable, bravest, and most important - most reliable and brave. Most suitable for the first flight Yuriy Alekseevich Gagarin was confessed in space.

Mothers name the children his name. The home town of cosmonaut Гжатск accepted the name of discoverer of star ways.

He is first! Heroes to the stars will be Directed again And will live from a century And to century. He - First, As if the first love, Both in memory And in the heart of man.
