pie charts the number of people speaking in their native language

The international language - the language used to communicate a significant number of people around the world . To denote this concept also uses the term global significance language. International language at the moment is English

Modern methods of learning English

Today there are many methods of language learning, which are distinguished by their originality and uniqueness of applied educational programs. Modern methods of learning English can be divided into several species and groups, but among this diversity, we consider several options for new techniques, which are quite interesting and still gaining its popularity. Well, for starters, we note the advantage of all the new techniques, it is that you no longer should attend courses one to two times a week, do not rearrange your work schedule or miss classes at the institute, everything became much easier and more convenient. And right now, you can learn English at any time convenient to you and at home, without the help of a network Internet.
