Conclusion

- Burning ambition – is a special condition when any human has an absolutely innermost desire
- Literally he rely on that condition and he also get over all obstacle and hindrance easier than others
- On my opinion ambition has as advantages and priority as disadvantages . Advantage is that you brain will find all answers and decisions –how to act in any situations and how to have success. But actually your talent and burning ambition will be in vain if you wont be working hard , wont be reflecting and thinking about all your steps

Conclusion

- Disadvantage – selfishness and brutality, egocentric behavior
- Sometimes when your ambition reached all limits – you success can have temporarily character
- Burning ambition is a gear that lead on the top of the success but if it is within reasonable frame.
