

Advantages and Disadvantages of Internet

*The Internet is so far one
of the greatest
inventions of all time.
The Internet has made
it possible for us to do
lots of things.*

People can shop in online stores like eBay, communicate with family and friends via Skype or Facebook, watch the latest videos on YouTube and make money from it, and so much more:

The Internet has proven to be very useful and has come with lots of advantages.

Here are some advantages and disadvantages of the Internet:

Advantages

1. Unlimited Communication

The Internet has made it easy for people to communicate with others, because it is cheap and convenient. The only costs are those paid to the Internet provider.

Advantages

2. Abundant Information and Resources:

The Internet is swamped with information about anything and everything. There are multiple search engines that make it easier for Internet users to find information.

Advantages

***3. Online Service
and
E-commerce
Today it is possible
to carry out
financial
transactions online.
You can transfer
funds pay taxes and
utility bills or book
movie tickets over
the Internet in the***

Advantages

4.

Entertainment:

This is one of the major reasons why many people enjoy surfing the Internet.

You can watch movies, listen to music, read

Disadvantages

1. Spam Mail: Spamming is the sending of unwanted and useless emails to random people. They are illegal and make it hard for people to access

Disadvantages

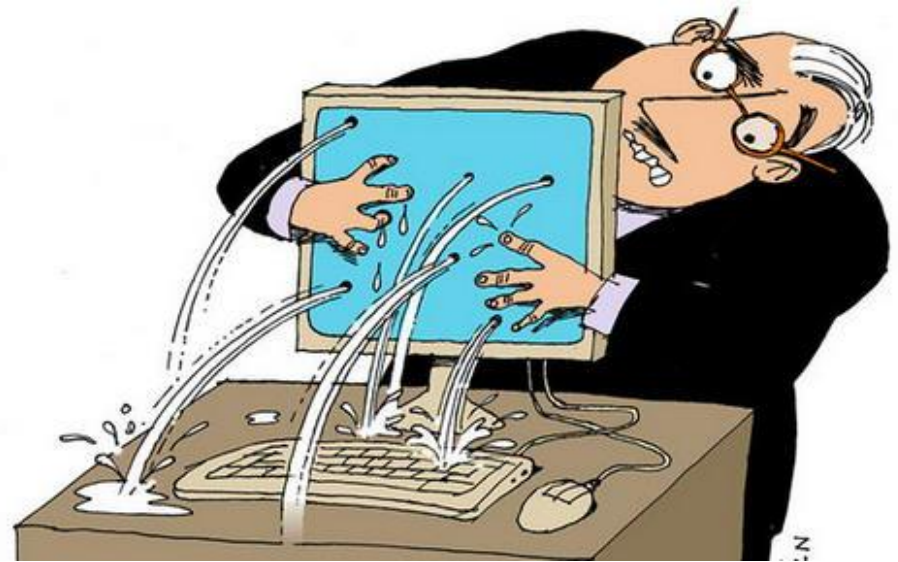

2. Virus: These are malicious programs that plague the Internet. They attack a computer with the intent of causing harm. They can make the computer malfunction and this can be costly

Disadvantages

3. Leakage of Private Information
Credit and debit card details are particularly vulnerable. Make sure to use a reliable payment processor instead of sending your

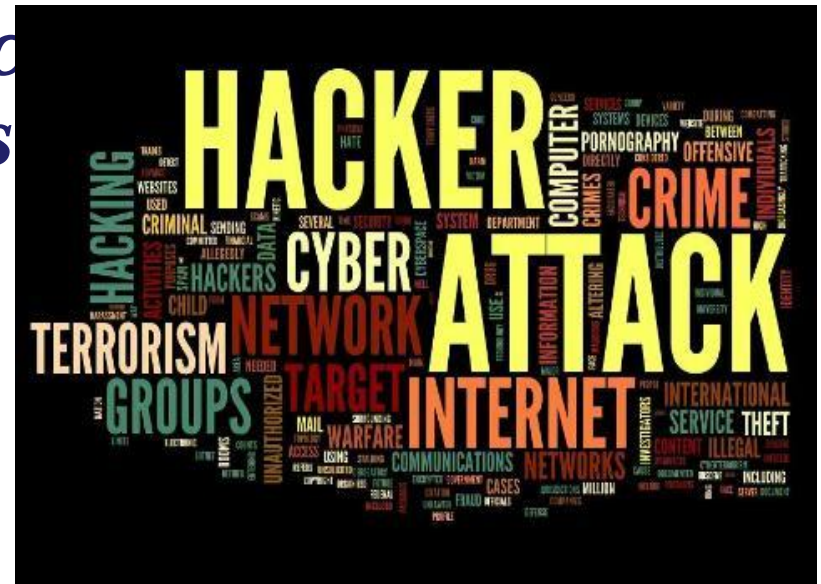

Disadvantages

4. Addiction to Internet: Some people spend a great amount of time on the Internet.

This affects their social interactions, it can cause obesity and cases, led to some dis

Disadvantages

*5. Kids Exposed to Adults
-only Content:
Internet contains
age-inappropriate content
like pornography.
Unfortunately, such
content can be accessed
by children.
Parents can lock out
harmful sites to Keep
their children safe
Nevertheless, children
can still access the
Internet
from other devices.*
