

Titanic is my favorite film.

- My Favorite Film. My favorite film is Titanic. It tells the story of the famous ship, Titanic, which sank in 1912. The Titanic was a colossal ship even by modern standards. Its tragic sinking will always be remembered, for the ship went down on the first voyage with heavy loss of life.

- The director of the film is James Cameron. The main parts in the film are played by young actors Leonardo De Caprio and Kate Winslet. To my mind their acting is superb. The camerawork is fantastic, too. I've heard that for this film they made a full-size model of the Titanic.

- Its a very spectacular film. It is also a moving love-story. I advise all my friends to see this film.
