I'd like to compare and contrast these two photographs.

▶ give a brief description (action, location)

The common theme of these pictures is birthday. In the first photo we can see a boy and his father. They are at the table. The second one depicts a group of children with clowns somewhere in the café.

❖ say what the pictures have in common

On the one hand, these two photos have a lot in common ['kɒmən]. The main similarity between these two photos is a birthday cake with candles in the foreground. Another similarity is the feelings and emotions in both pictures. The children are very excited and concentrated, they are going to blow out the candles on the cakes.

That's where the similarities end.

► **say in what way the pictures are different**

On the other hand, in some ways the photos are really different. In the first one we can see a birthday boy at the table with his father in the living room. **Whereas**, the second photo shows us a birthday girl with her friends, wearing special birthday hats. **Also, I can pay attention to** the size of birthday cakes. In the second photo there is a big cake with 6 candles **while** in the first one we can see a small cake with 4 candles on it.

❖ say which of the parties presented in the pictures you'd prefer

As for me, I'd prefer to be at a the birthday party presented in the second picture

❖ explain why

because I like to celebrate birthday with friends and it's very exciting and fun.
