## Professional competence of the teachers .

- Teachers' professional competence is: the ability of teachers to carry out the professional activities characterized by smooth and even perfect completion of educational tasks.
- How we can describe a competent teacher? Professional competences are the system of knowledge, skills, abilities and motivational disposition which provide the effective realization of the professional teaching activities. Teachers' professional competences are determined by the social-interaction characteristics of the instructional process.

# Professional competence of the teachers .

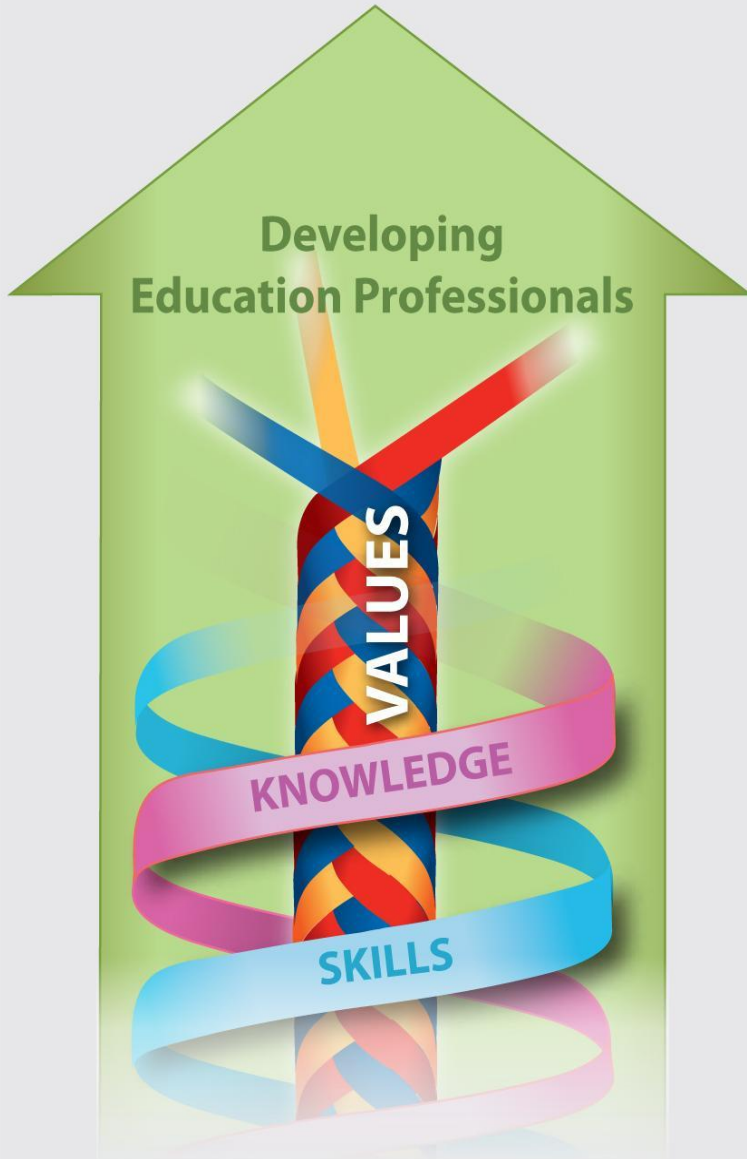

The basic professional competencies of teachers are: education competence, program competence and communicative competence.

Indicators of communication competence are: interaction involvement, conflict resolution style and team-work attitudes.

# COMMUNICATION COMPETENCE

## Cognitive dimension

# COMMUNICATION COMPETENCE

Behavioral dimension

Education and teaching process consist of communication among the group members and communication between groups. The special conditions of teachers work are the skills and strategy of team work, and ability to organize students' team-work in the classroom.

# **New pedagogical thinking of high school teacher.**

Teacher thinking has rapidly grown into the greatest individual theme in research on teaching and teacher education.

Pedagogical thinking and decision-making processes towards actions in pedagogical contexts is difficult to make explicit, particularly, because pedagogical thinking is not directly distinguishable from teachers' prevailing and current thinking.
