My friend name is Nikita Kuznetsov, he is 19 years old. He lives in Voronezh. His character is not simple: it is flippant and hot-tempered, but helpful and patient. He is phlegmatic and lazy like me. However, it is very easy and pleasant to communicate with him.

We met in the online game League of legends. I was his support, and he is the main damage on the team. The whole game we jokingly were sending each other smilies. Surprisingly, but we won. Now we often talk in Diskorde.

Now he mostly sit home. He likes this. Before he walked out on chess and even has a 3 level. He was fond of swimming year 3 and Web programming. He tried to go to boxing, but quickly realized that it was not for him. He loves eating shawarma.

He was a student of SGTJeK (Semiluksky State technical-economical College). He retired from there on 4 course after the first course work. As coursework he developed online shop. Still studied 1C and C++. Moonlighting as a cashier.
