The screenshot shows a Safari browser window with the address bar displaying `support.apple.com/kb/dl1531`. The page features a navigation bar with links for Store, Mac, iPod, iPhone, and iPad. The main content area displays the Safari logo (a compass) and the title "Safari 5.1.7 for Windows". A prominent blue "Download" button is visible, with a large red arrow pointing to it from the bottom left. Below the button, there is a paragraph of text describing the update's improvements to performance, stability, and security, followed by a bulleted list of specific changes. At the bottom, there is a link to a security advisory page and a SHA1 hash for the Windows version.

Safari 5.1.7 for Windows contains improvements to performance, stability, compatibility, and security, including changes that:

- Improve the browser's responsiveness when the system is low on memory
- Fix an issue that could affect websites using forms to authenticate users

The image shows a screenshot of a web browser displaying the Apple website. The browser's address bar shows the URL <http://www.apple.com/>. The navigation menu includes links for Store, Mac, iPod, iPhone, iPad, and iTunes. The main content area features the iPad mini advertisement with the text "iPad mini with Retina display. Small wonder." and a "Watch the keynote" button with a play icon. Three iPads are shown in the foreground, displaying various content: a book cover, a newspaper article titled "Fins & Fin System", and a photo of a person on a mountain trail.
