**«English
in my future
profession»**

- There are a lot of interesting and useful professions. I am going to become a teacher. English teacher. I suppose my future profession to be one of the most important nowadays.
- Children are our future and I want them to be really good and educated people. Of course, the profession of a teacher is not an easy one. It demands a lot of knowledge, a lot of feeling and sometimes a lot of patience. But I hope that will be a good teacher and that my pupils will like me and my subject.

My future profession

ENGLISH FOR JOB!

English in my life!

English is important for me not only in this moment, but also in the future. I'm sure I'll need language to find a very good job!

It is very important to know the language for conclusion of contracts and agreements.

I think that in the future the importance of English language in the world will increase.
