Famous Cartoons

Instructions

1. The students are split into 2 or 3 teams.
2. The teams decide who will start.
3. Each team takes turns choosing one icon at a time from the Home slide.
4. Teacher checks the answer.
5. If a team give the right answer, they will spin the wheel and receive the points shown by the arrow.
6. If the answer is wrong, they have a 2nd chance by clicking on the same slide they are, as a new picture will appear.
7. If they get the 2nd answer correctly, they only get half of the points;
8. The teacher then clicks on the HOME button to return to the Home slide for another round until the options are all over.

NOTE: In order to keep track of the score, get a notepad and write it down.
