

*Oscar Ribeiro de Almeida de Niemeyer
Soares Filho*

- December 15, 1907
- December 5th, 2012

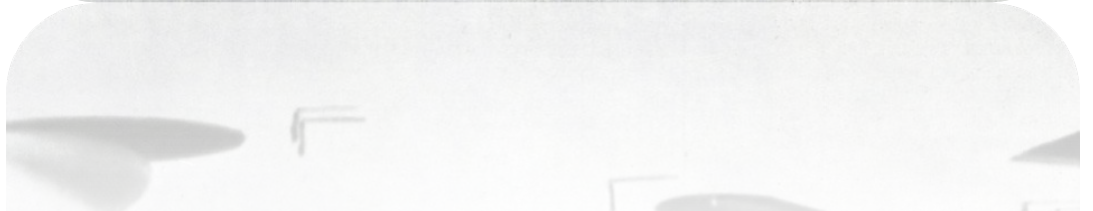

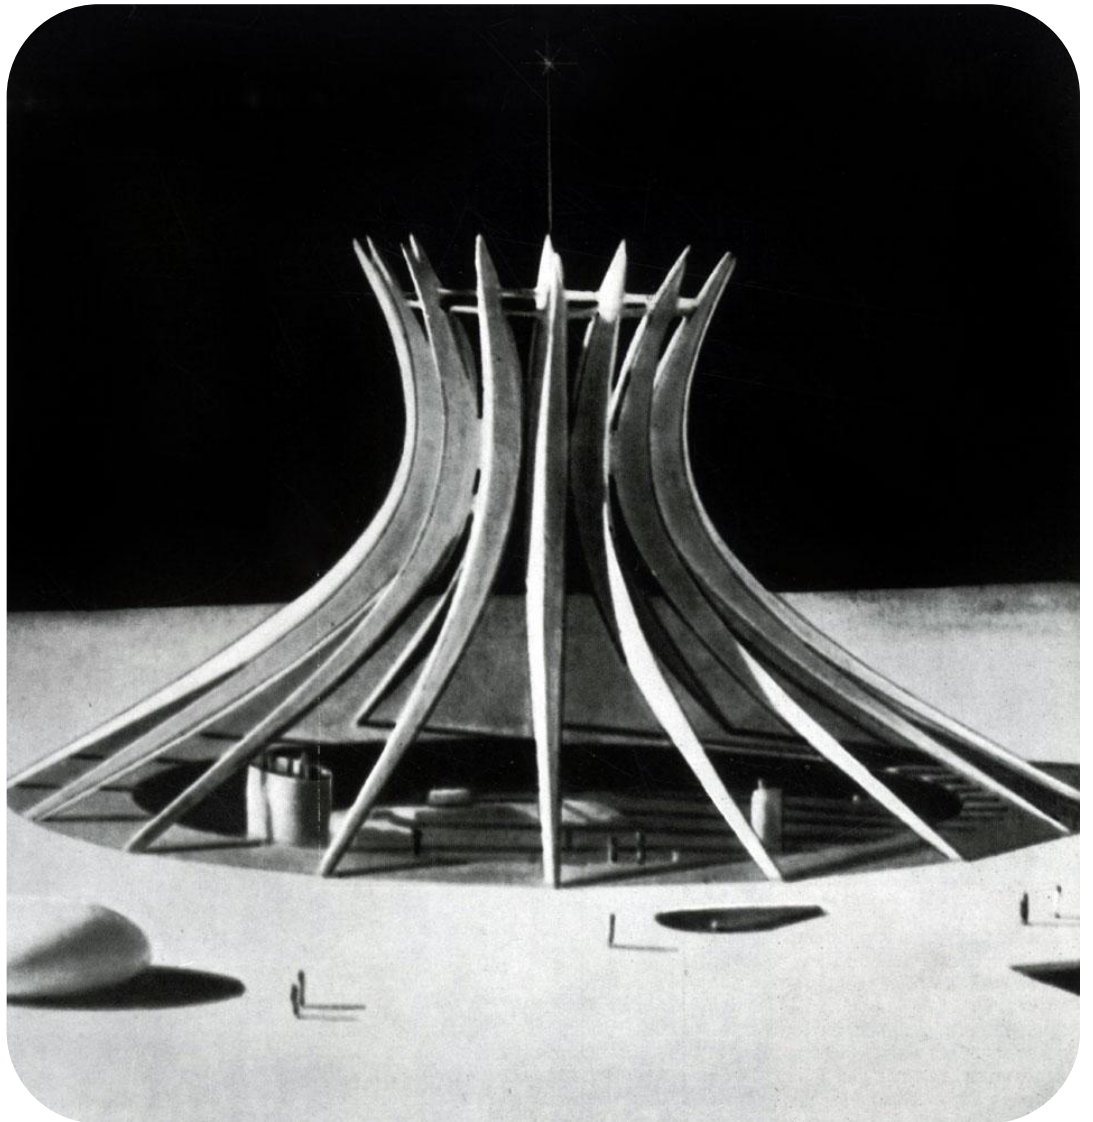

In the second half of the 1930s in Brazil began to take shape Brazilian national school of modern architecture. Her first work was the building of the Ministry of Education and Health in Rio de Janeiro.

- Since 1957, the Master Plan Niemeyer, Lucio Costa carries out the future development of the new capital - the city of Brasilia

Niemeyer architecture distinguishes plasticity, expressiveness and warmth. He was one of the first to see and realized the artistic possibilities of reinforced concrete.

On the eve of the centennial Niemeyer Vladimir Putin
signed a decree awarding the Order of Friendship of
architect

*É o homem mais próximo,
mas amigo; signa finalmente.*
