Students that have duties after exams

Students deducted after first session

Students deducted after whole education

Students finish their education

53 %

Percentage of students having problems with professors

What is the main goal of our invention?

- creating a data base, which includes

information about every teacher

(his or her peculiarities, examining questions, way of communications)

Benefits

- honest opinion of students

- easy way for preparing to the exam

- easy way for choosing the faculty

BE KIND, SPECIFIC AND HELPFUL

How it works?

- Students send their opinion or note about tutor to the site approving that he/she studies in the university indeed. Moderators check the notes and the identity of sender. Afterwards, IT guys publish the comments on the page of a certain professor/tutor.

Main principles

- clear

- understandable

- helpful

- reliable

- containing feedback ways
