Mazna Alina, 44 g.

My favorite actor Jim Carrey. In my opinion, Jim is the best comedian in the last decade.

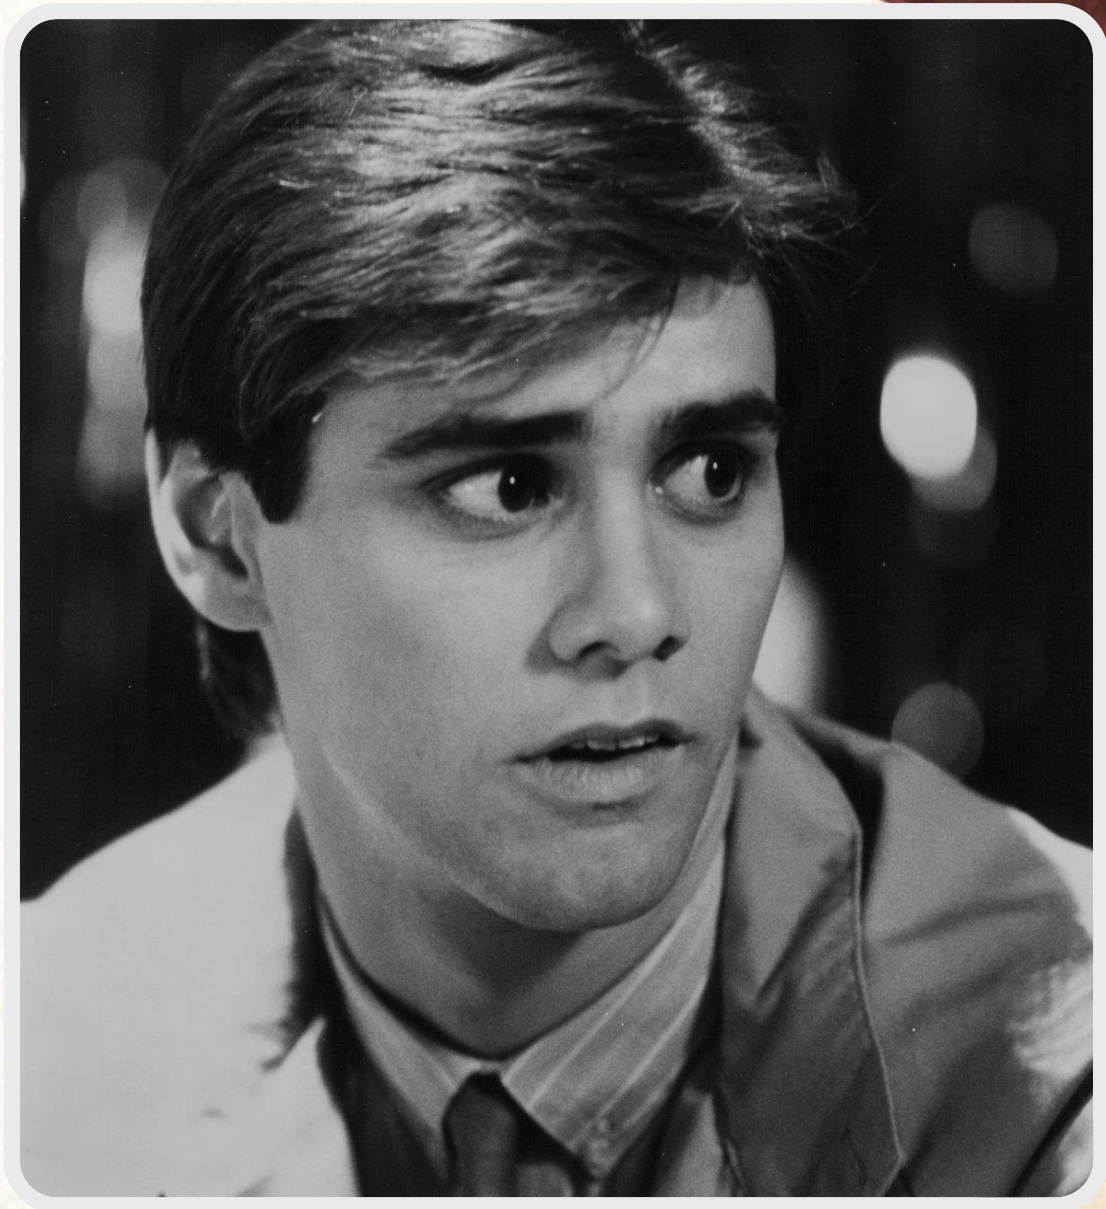

His biography is very much interested me. James Eugene Carrey was born January 17, 1962 in Canada, in a poor family, where, apart from him, there were three children. Jim's father had constant financial difficulties, and his mother was different pathological tendency to look at a variety of diseases.

It is no wonder that Jim brings a lot of trouble at home and school. Little Jim preferred to pose faces and tear lessons instead to study hard.

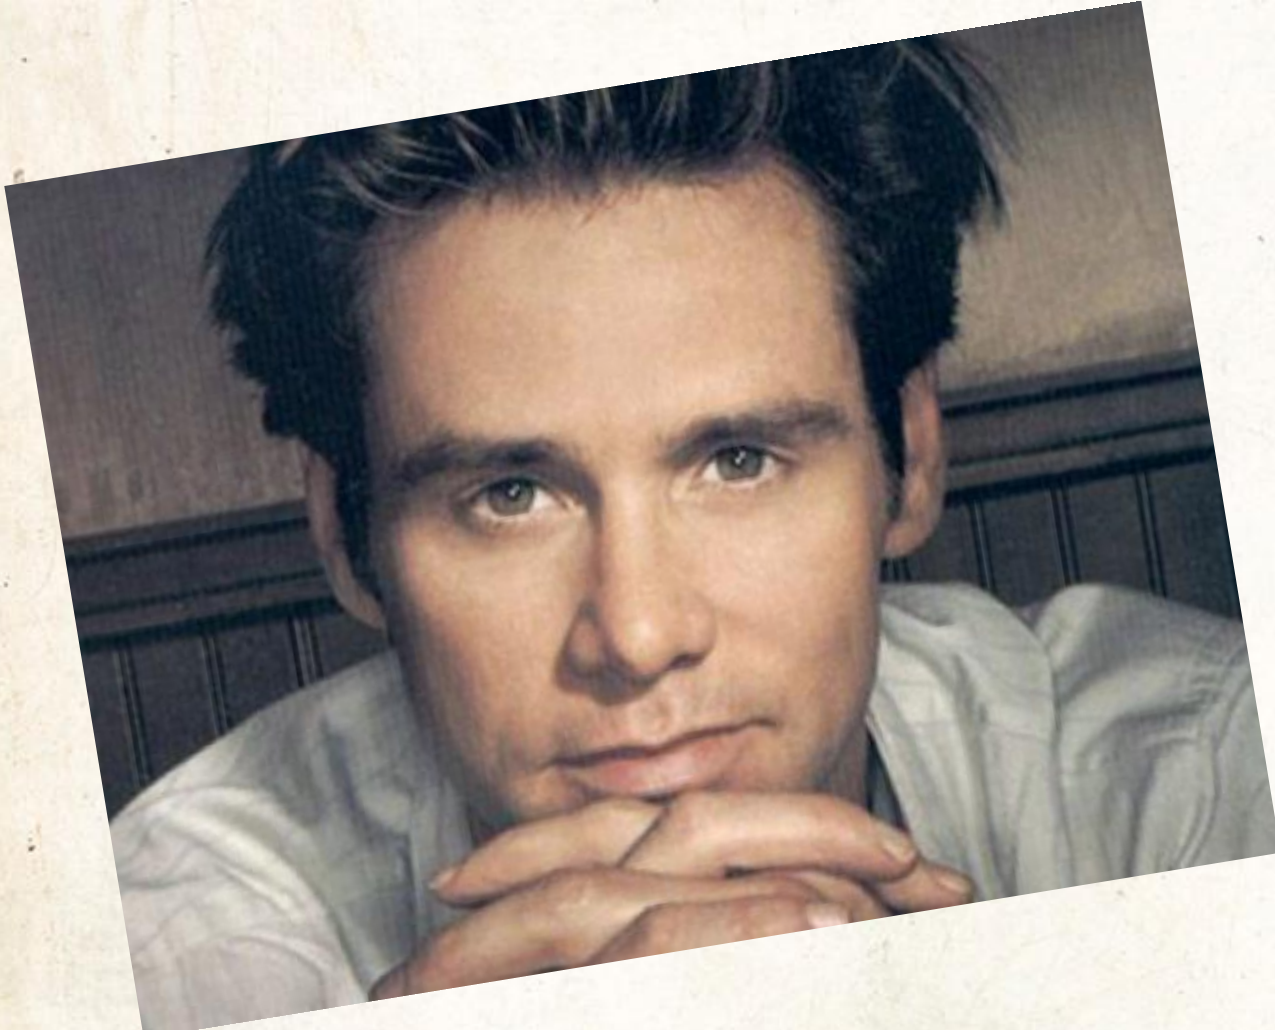

With 16 years of Kerry began performing skits in small clubs, but the performance is not a success. However, Jim believed in his star and did not give up easily.

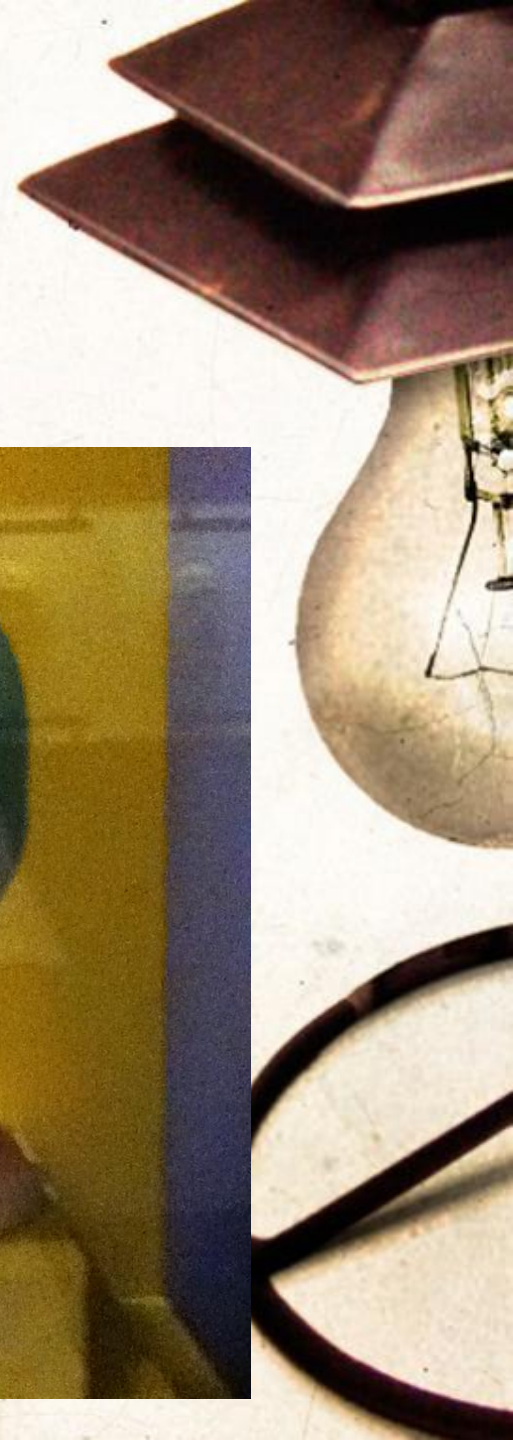

His goal was to television, and he seriously began to study acting. The screens Kerry appeared in supporting roles in serials.

The turning point in his career occurred in 1994 after the release of "Ace Ventura: Pet Detective", when Jim woke up famous. Then there were the "Mask" and "Dumb and Dumber."

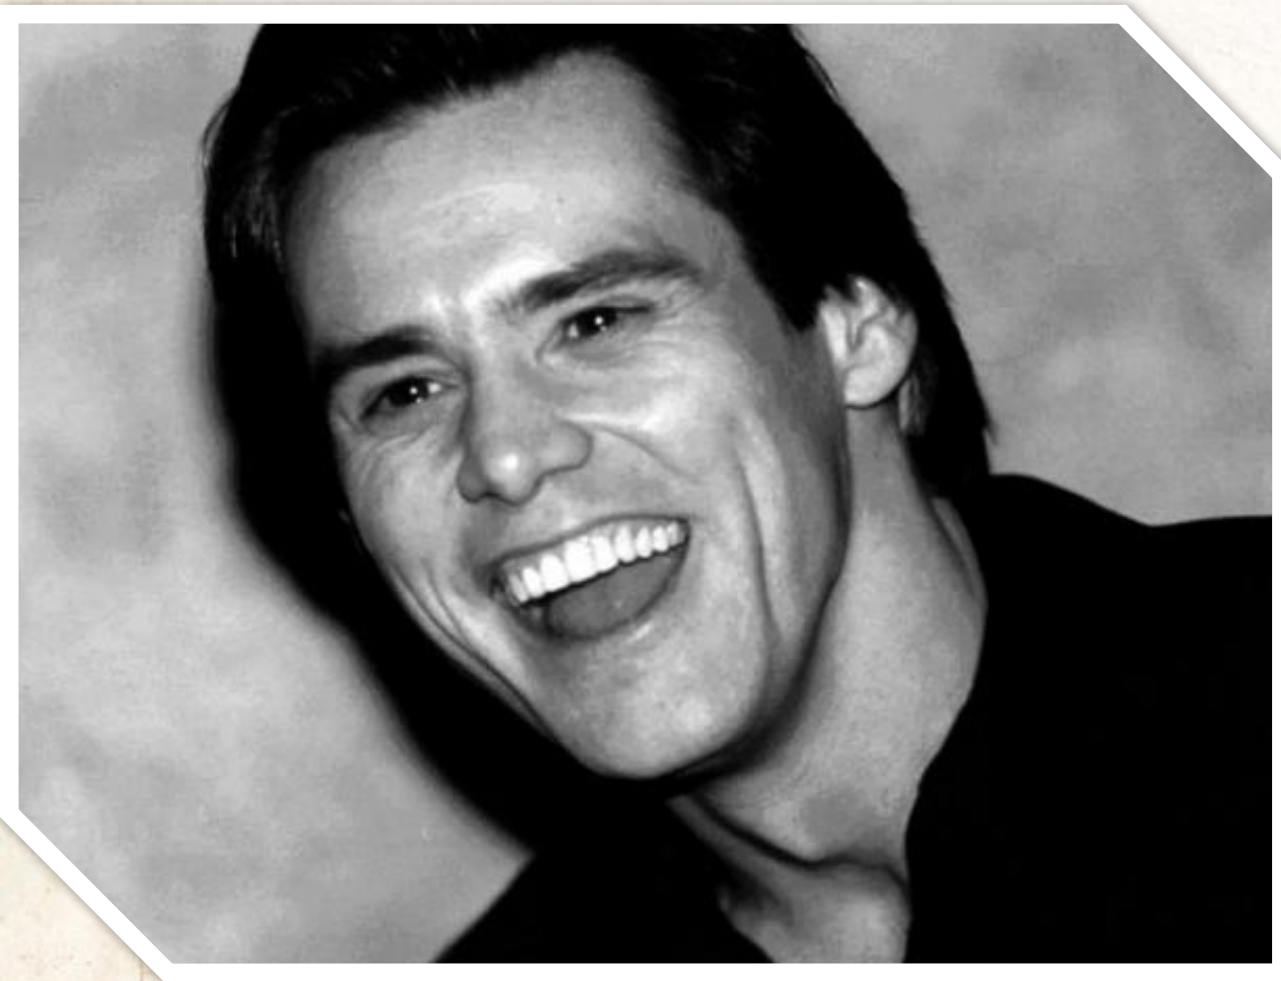

However, the success was the other side - the actor was held hostage by his role, fool with "rubber face". Now Jim Carrey has won numerous "Golden Globe", but in recent years in the career of an actor was a lull, and his film, shot after "Bruce Almighty," were hardly seen a mass audience.

Now Jim is known worldwide, he is the favorite actor of many people. He is bright, positive actor love the audience.
