

NATURAL DISASTERS

A high-angle photograph of a snowy mountain slope. A large, turbulent mass of snow is cascading down the right side of the frame, creating a thick, billowing cloud of white powder. The surrounding snow-covered terrain is rugged, with dark rocks and patches of snow visible. The lighting is bright, casting soft shadows on the snow.

avalanche

A satellite image of a cyclone over the ocean. The cyclone is a large, swirling cloud system with a distinct eye in the center. The surrounding ocean is dark blue, and the landmasses are green and brown. A white rectangular box with a black border is overlaid on the image, containing the word "cyclone" in a black, cursive font.

cyclone

A wide-angle photograph of a parched, cracked landscape under a bright, hazy sun. The ground is covered in a dense network of dark, irregular cracks, creating a mosaic of light-colored, dry earth. The horizon is flat and distant, with a few faint, dark shapes that could be trees or structures. The sky is a uniform, bright orange-yellow, suggesting a clear, hot day. The overall scene conveys a sense of extreme heat and lack of water.

drought

earthquake

flood

A photograph capturing the aftermath of a hurricane. The scene is dominated by palm trees whose fronds are bent and blowing in the wind. In the foreground, a yellow, rusted vintage pickup truck is parked on a grassy area. To the left of the truck, a blue handicapped parking sign is visible. The background shows a building and a beach area, all shrouded in a thick mist or rain. The overall atmosphere is one of destruction and desolation.

hurricane

tornado

A dramatic and catastrophic scene depicting a massive tsunami wave. The wave, a towering wall of dark, churning water, is crashing over a coastal city. The buildings, which appear to be multi-story apartment complexes or hotels, are partially submerged and surrounded by the turbulent water. The sky is dark and stormy, with heavy clouds. The overall atmosphere is one of immense scale and destruction. In the foreground, the beach is visible, with some debris and small structures scattered along the shore. The water is a mix of dark blue and white foam from the crashing wave.
