# TRANSITION HEADLINE

Let's start with the first set of slides

Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

## THIS IS A SLIDE TITLE

- ✘ Here you have a list of items
- ✘ And some text
- ✘ But remember not to overload your slides with content

You audience will listen to you or read the content, but won't do both.

Bring the attention of your audience over a key concept using icons or illustrations

## YOU CAN ALSO SPLIT YOUR CONTENT

### **White**

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

### **Black**

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

## IN TWO OR THREE COLUMNS

### **Yellow**

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

### **Blue**

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

### **Red**

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

## A PICTURE IS WORTH A THOUSAND WORDS

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A vibrant field of red poppies in full bloom, with green stems and leaves visible. The flowers are densely packed and extend into the distance, creating a sense of depth. A white, hand-drawn rectangular border is centered over the image, containing the text.

You don't need to keep this slide in your presentation. It's only here to serve you as a design guide if you need to create new slides or download the fonts to edit the presentation in PowerPoint®

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change fill color and opacity.

Isn't that nice? :)
