Medical Consulting

We started out as a group of 4 doctors who saw the potential of medical tourism in Bosnia & Herzegovina. It was a shame that this small, beautiful country with an abundance of skilled doctors and modern clinics wasn't open to the world.

Being the first agency in Bosnia & Herzegovina to propose such a wide range of offers and procedures gave us the chance to be leaders in this business, and we know that the only way to stay ahead is to have our clients' complete trust.

You will want to have access to one of the best facilities in Sarajevo, state of the art treatments and the best panel of healthcare professionals available. You will want to be in a relaxed but hard-working environment, in a place that does not overcharge you, in a country that offers everything and anything you might want or need, with an agency that's there just for you.

After arriving in Sarajevo, we will be your main point of contact, so feel free to contact us whenever you have some questions or need any kind of help. We are gladly here to be at your service.

Looking forward to meeting you,
