

Popova Anastasia

My dear friends

Daria

Elena

Victoria

I have a lot of friends but I want to tell about my best friends. Their names are Daria , Elena and Victoria. They are my classmates. They are cheerful, inquisitive and kind. They are very responsive. They will help me in hour of need. I always can rely on them. Sometimes we fight, but we condone quickly. When we have free time, we go out together. They are very reliable and honest persons and at any moment I can rely on them.

Our first meeting.

We met five years ago when we came to fifth grade. We each other did not know. And not immediately get along with them. Several years passed and we began to chat. Every year our friendship stronger and stronger. I hope we will be friends after finishing school and I'll do my best not to lose this friendship in the future.

Adventure

One day we had an adventure which tested our friendship. Last year we had an adventure. It was dark and late when we were walking homewards . There was nobody there. Suddenly I heard some footsteps. A man was following us. He wanted our money. We were scared, but we did not panic, but quietly ran off. That was really terrible! But I was glad because I didn't feel disappointed in my friends.

Adventure

This adventure showed that I could rely on Daria , Elena and Victoria. when I have problems. She stays loyal to our friendship.

I think people should have some friends. If they make friends they will never feel lonely. In my opinion good friends will help you when you have problems. Besides you will never get bored with them.
