

Kazan National Research University

The work was made
by Dmitry Moiseev
Group №4110

University

- KAI is a Technical University. It prepares students who knows what to do. University gives them excellent studying, encourages sport, different activities.
- So, KAI-wings for life.

Location

- KAI is situated in Kazan-capital of Tatarstan

Students and teachers

- There are about 1000 teachers and 17000 students in KAI

Institutes

- 1) Institute of Aviation , Land Transport and Energy
- 2) Institute of Automation and electronic engineering
- 3) Institute of Computer Technology and Information Protection
- 4) Institute of Radio Electronics and Telecommunications
- 5) Institute of Economics, Management and Social Technologies
- 6) Physics and Mathematics faculty

Institute of Computer Technology and Information Protection

- I am a student of Institute of Computer Technology and Information Protection.
- It is the best institute of KAI, I think

Subjects

- The main subjects of our Institute are high mathematics, computer science now.
- But more, we have Russian, Cultural studies, History, English, P. E, Engineering graphics

Advantages and disadvantages

- What I like: military department, Good future profession after university
- What I do not like: little breaks, difficult tasks, huge attention for extracurricular activities.
