

HOBBY

2016.

Son Aleksandra
1 course 1 group

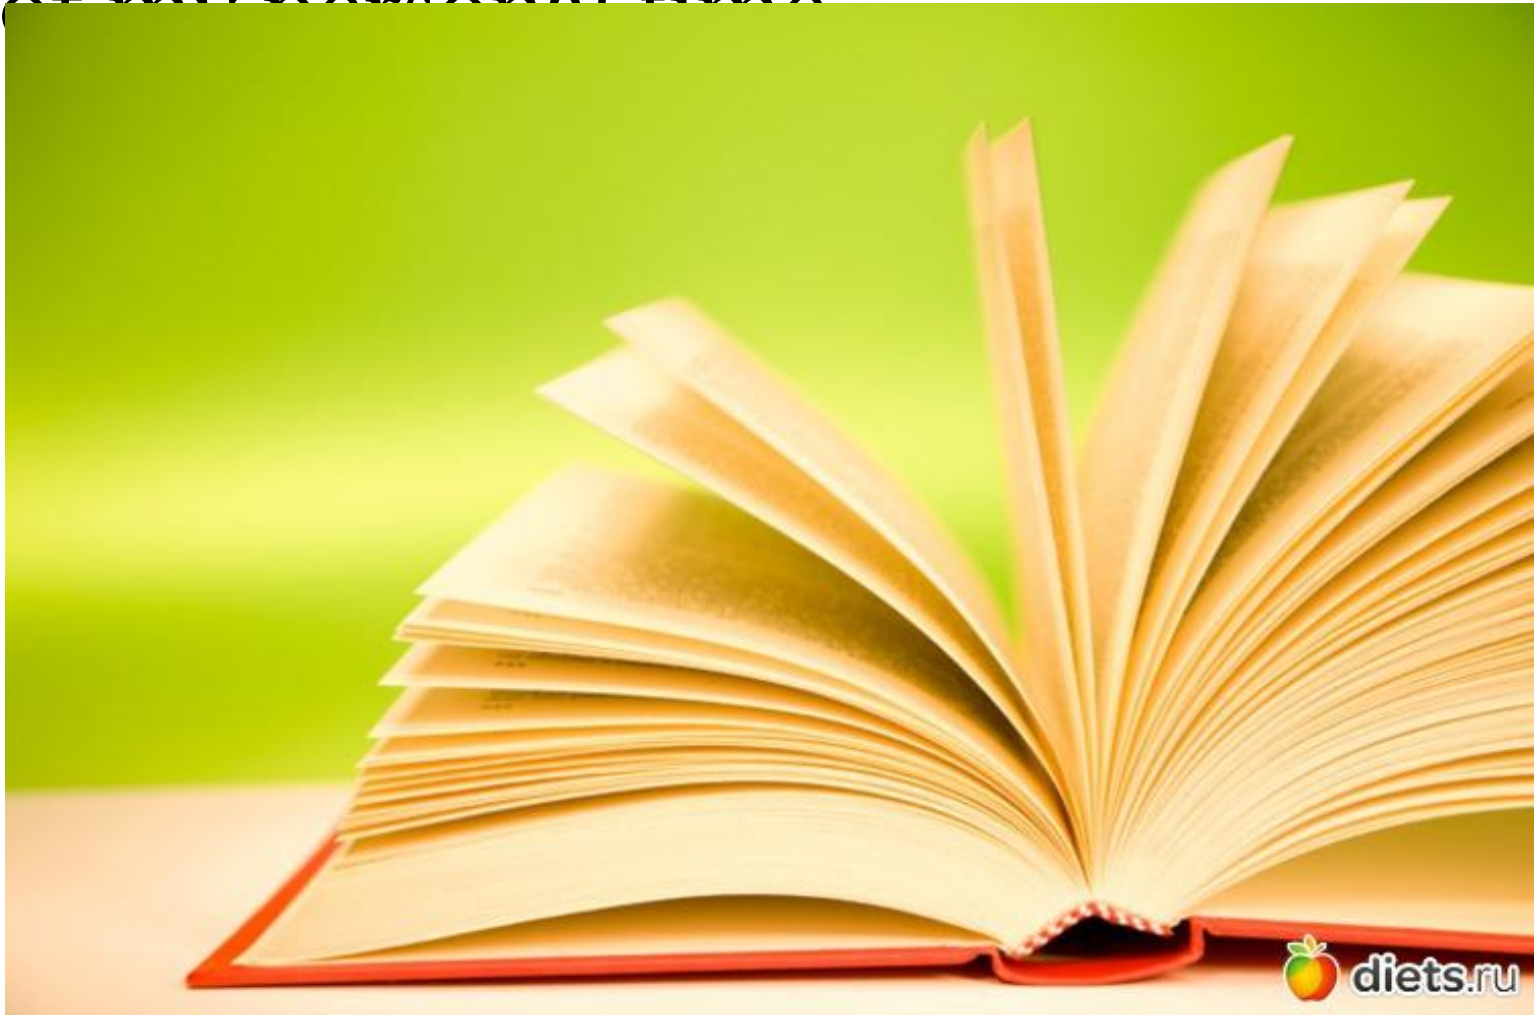

As any person Hobbies vary during the stages of growing up. And I am no exception. I was fond of drawing and painting.

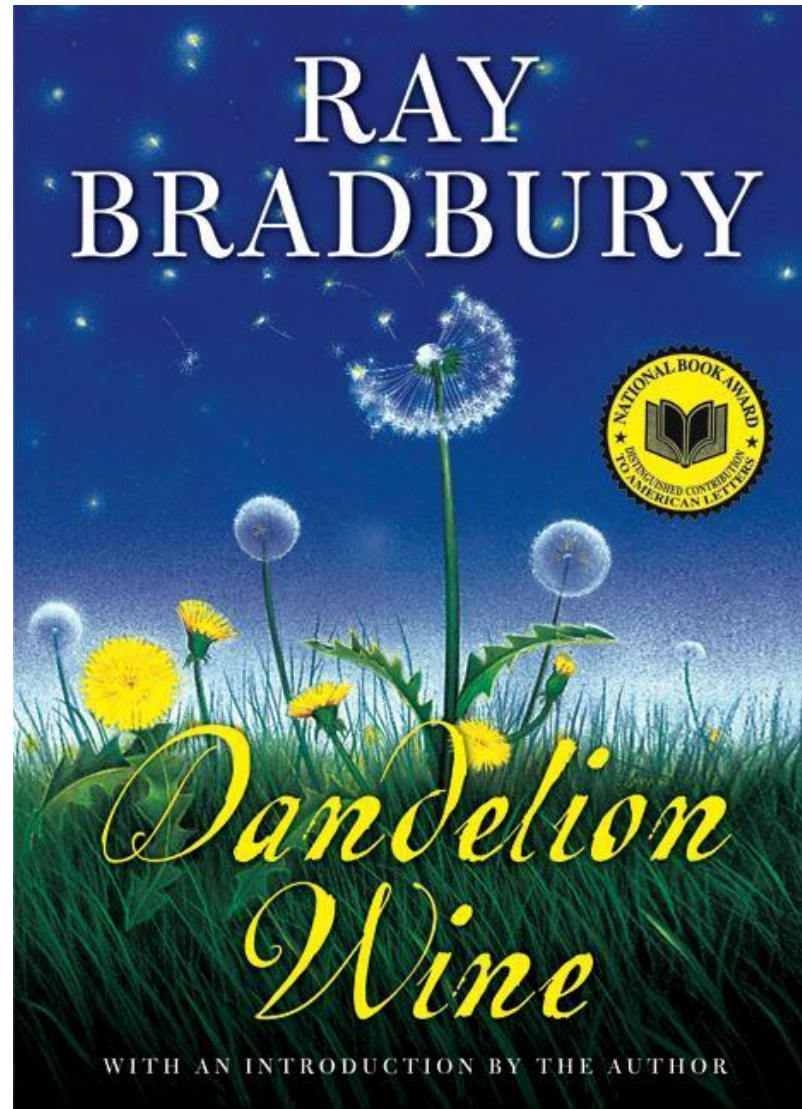

With confidence I can say that the dancing was more fun for me than my other Hobbies

But at the moment my hobby is reading books because school and work takes a lot of my personal time.

I mostly read fiction. One of my favorite books is Dandelion Wine by Ray Bradbury.

In General I can say that I don't have specific Hobbies which I devote all my time. But I get to pay attention and study, and work, and reading and sports and our spiritual development.

Thanks for
watching!
