Books are one of the greatest wonders in the world. They follow us during all our life. When you read a book you enrich your mind with knowledge. This knowledge will help you in different subjects. People who read many books are very clever. If you read many books you will get a lot of information on many subjects.

# *Information about books*

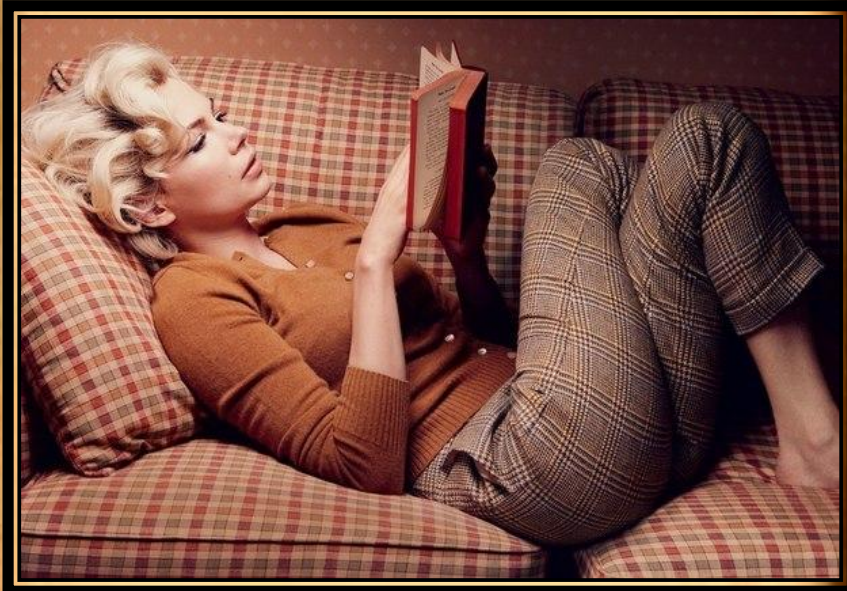

Some of modern adolescents don't like reading books. They prefer watching TV, playing computer games and other kinds of entertainment. I don't think it's very good. Books are not only entertainment. They help us in self-education, and also to imagine the future, to look into the past.

Books develop our intellect, our soul, but, of course, except of some modern crime or love novels, which you can find in any bookshop and which are printed only for entertain. I don't like this kind of literature and, in my opinion, reading such books is only waste of time.

Everybody has his favorite books. They can be novels, detective stories, science literature and many others. All of them distinguish and form some individual traits of character in everybody.

HÉT BOEK BIJ DE BIOSCOOPHIT

SUZANNE COLLINS

THE  
HUNGER GAMES

VAN GOOR

My favourite book is «Hunger Games».

When I read this book I experienced a variety of emotions: joy, sorrow, fear, along with the heroes ... And the fact that the book is written in first person, only strengthened this feeling.

I believe that this book should be read by anyone. It is to love life, to some it may be, be bold and strong mentally, teaches to confront the difficulties bravely meet misery and obstacles in its path.

*The End*
