Sea level is rising, ice caps are melting, climate is changing. Our planet is getting hotter and hotter.

Agricultural lands are degrading. Some countries suffer from water shortage. Food prices are rising. People are dying.

People use millions of plastic bottles and plastic bags every day. We throw away too much rubbish.

Animal's habitats are being destroyed. Lots of people hunt for animals. Every 10 minutes one kind of animals disappears.

Half the people in the world live on less than \$2 a day. They suffer from lack of food and medicine.

Nearly 3 billion people in the world have no permanent home.
