The text

There are so many kinds of music in our life. For example, rap and pop music, rock and alternative music, industrial and disco music, drum & bass and techno music, and, of course, classic music.

Different people like different music. The scientists say that they can define your character if they know what music you like. For example, they suppose that people who listen rock music are very clever and reasonable. British scientists confirm that the most of young people listen to the aggressive music as metal and rock. Scientists say that these people are good students, because of their character and assiduousness. I agree with this statement, because I think that music shows your soul and nature.

As for me, my favorite group is «Suicide Silence». They sing in different styles, such as: alternative, new metal, heavy metal and rock. I like this group because of good texts and unusual musical decisions. «Suicide Silence» was formed in 2002. They released 6 albums. I love all their songs without distinction. My favorite song is «You only live on

The most prominent person of the group was and always stay Mitch Lakes. On November, 1, 2012, it was announced by Orange County Coroners Office that Mitch had died that day from injuries sustained after motorcycle accident. He was 28 years old...

We love and never forget you, Mitch.

R.I.P.

REST IN PEACE

I always adored people who compose music and write poems. I think that such people are very talented. Also I believe that they can draw pictures and show their feelings by their music or poems. They can make you cry or laugh. Moreover they make you think about global problems or you may lie soft and just dream while you are

I guess that we can't live without music. My motto is: "Silence is killing!" As for me, I always listen to the music, when I'm happy or when I'm unhappy. It helps me in my everyday life. I listen to the music everywhere: at home, in the bus, in the street.

Nowadays we have relaxing music, which we use in medicine. More helpful than all kinds of music is classic music by such famous composers as Bach, Beethoven, Mozart and Vivaldy.

Music is everywhere! It's on television, over radio, in all movies! Can you imagine any movie without music?! Of course not. What if you watch television without sound, what if you see ballet without music, what if you hear voices without melody at the opera? Our life will be boring

THANK YOU FOR ATTENTION!
