

CHEMIST

- Kulaeva Ekaterina
- Student of 11 grade
- Kulyabovskaya school

Medicine - the science second for accuracy after religion.

The medicine really is most noble of all arts.

I want to be a chemist. I think that it is pleasant work very much.

I want to be useful
people. I want to help
people.

I accepted the decision together with a mother. She dreamed to be a doctor. I and my friends often discuss my future profession. I think I on a correct way.

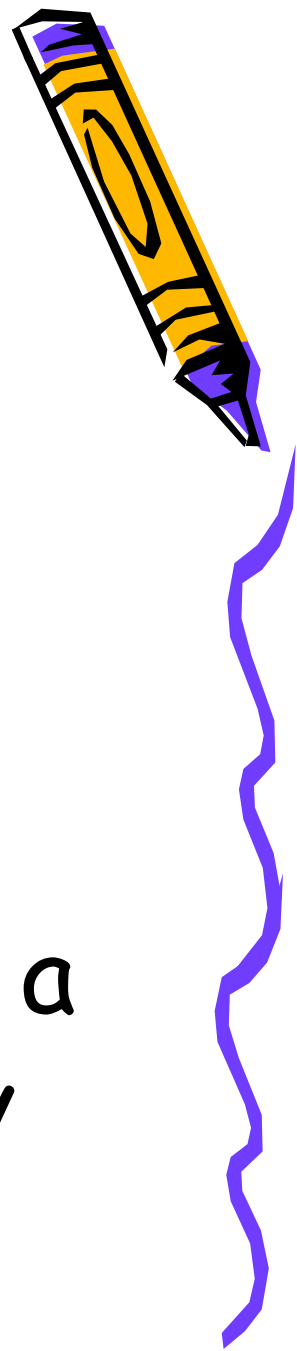

Chemist can prepare pills and sell them.

this work requires a
lot of efforts very
much

I think that it is prestige
work
