ASSOCIATE PROFESSOR OF THE DEPARTMENT

*"FOREIGN LANGUAGES IN TECHNICAL AND NATURAL
SPECIALTIES"*

Yakutsk State District Power Station

Yakutsk State District Power Plant is preparing for the thunder season

During preparation for a thunderstorm, station personnel conduct a daily visual inspection of switchgear electrical equipment

Yakutsk State District Power Plant is completely ready for winter

Action plan

Scheduled repairs of the main and auxiliary equipment

Conduct emergency and fire training

Conclusion

- ▶ Annual preparation of equipment for the storm season and autumn-winter period is a mandatory stage in the system of ensuring reliable operation of stations and uninterrupted power supply to consumers of the Central energy district of Yakutia.

Thanks for attention!
