DANGER!

KEEP OUT!

Keeping clean: Don't let pets in the kitchen. Always wash your hands well before you touch any food. Clean the work surfaces well to keep bacteria away!

Preparing food: Wash fruit and vegetables well. Never chop raw meat and then use the same knife for other food - to cut your bread, for example. There are lots of dangerous bacteria on raw meat. Use sharp knives and chop very carefully.

Storing food: Bacteria can't live in the cold, but they love warm kitchens! Always keep raw meat, cooked food and dairy products like milk, cheese and yoghurt in the fridge. Don't put other food next to raw meat!

1 Which of the sentences 1-5 are true for you?

1 I always wash my hands first.
2 I use one knife to chop everything.
3 I wash fruit and vegetables really well.

3 Now look at your answers in Ex. 1 again. What do you think you can change next time you help in the kitchen?
I can my hands before I cook.
