Заключение

- To sum up, ...
- I want to say that ...
- In conclusion, I'd like to point out that ...

There are 2 pictures here and now I'm going to compare and contrast these two photographs.

In the first picture we can see a boy and a girl dancing in the centre. Also, there are a lot of children, teachers and parents in the background of the picture. In the second picture there are 3 pairs of students. They **are dancing** the waltz.

These pictures have a lot in common. For example, it seems to me, both pictures describe school events. Also, you can pay attention to the clothes of the students. They are similar. Another similarity is their dance. I think students are dancing the waltz in both pictures.

However, these photos have certain differences too. First of all, the pictures describe different events. I suppose that they are the 1st of September and a graduation party. Secondly, it's obvious that students in the first picture are much younger than in the second one.

As for me, I'd prefer visiting the event presented in the first picture, because I really like the atmosphere of the 1st of September.

In conclusion, I'd like to notice that these pictures have some differences but school theme unites them.
