

Evaluation of the human potential "Dalspetsstroy" of the Federal Agency for Special Construction

The dynamics of the cost of construction and installation work

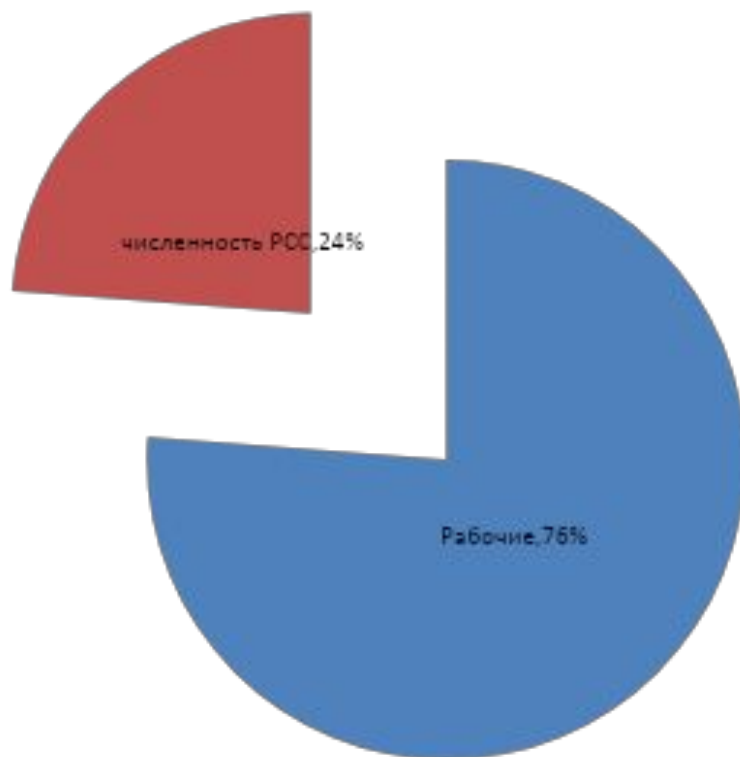

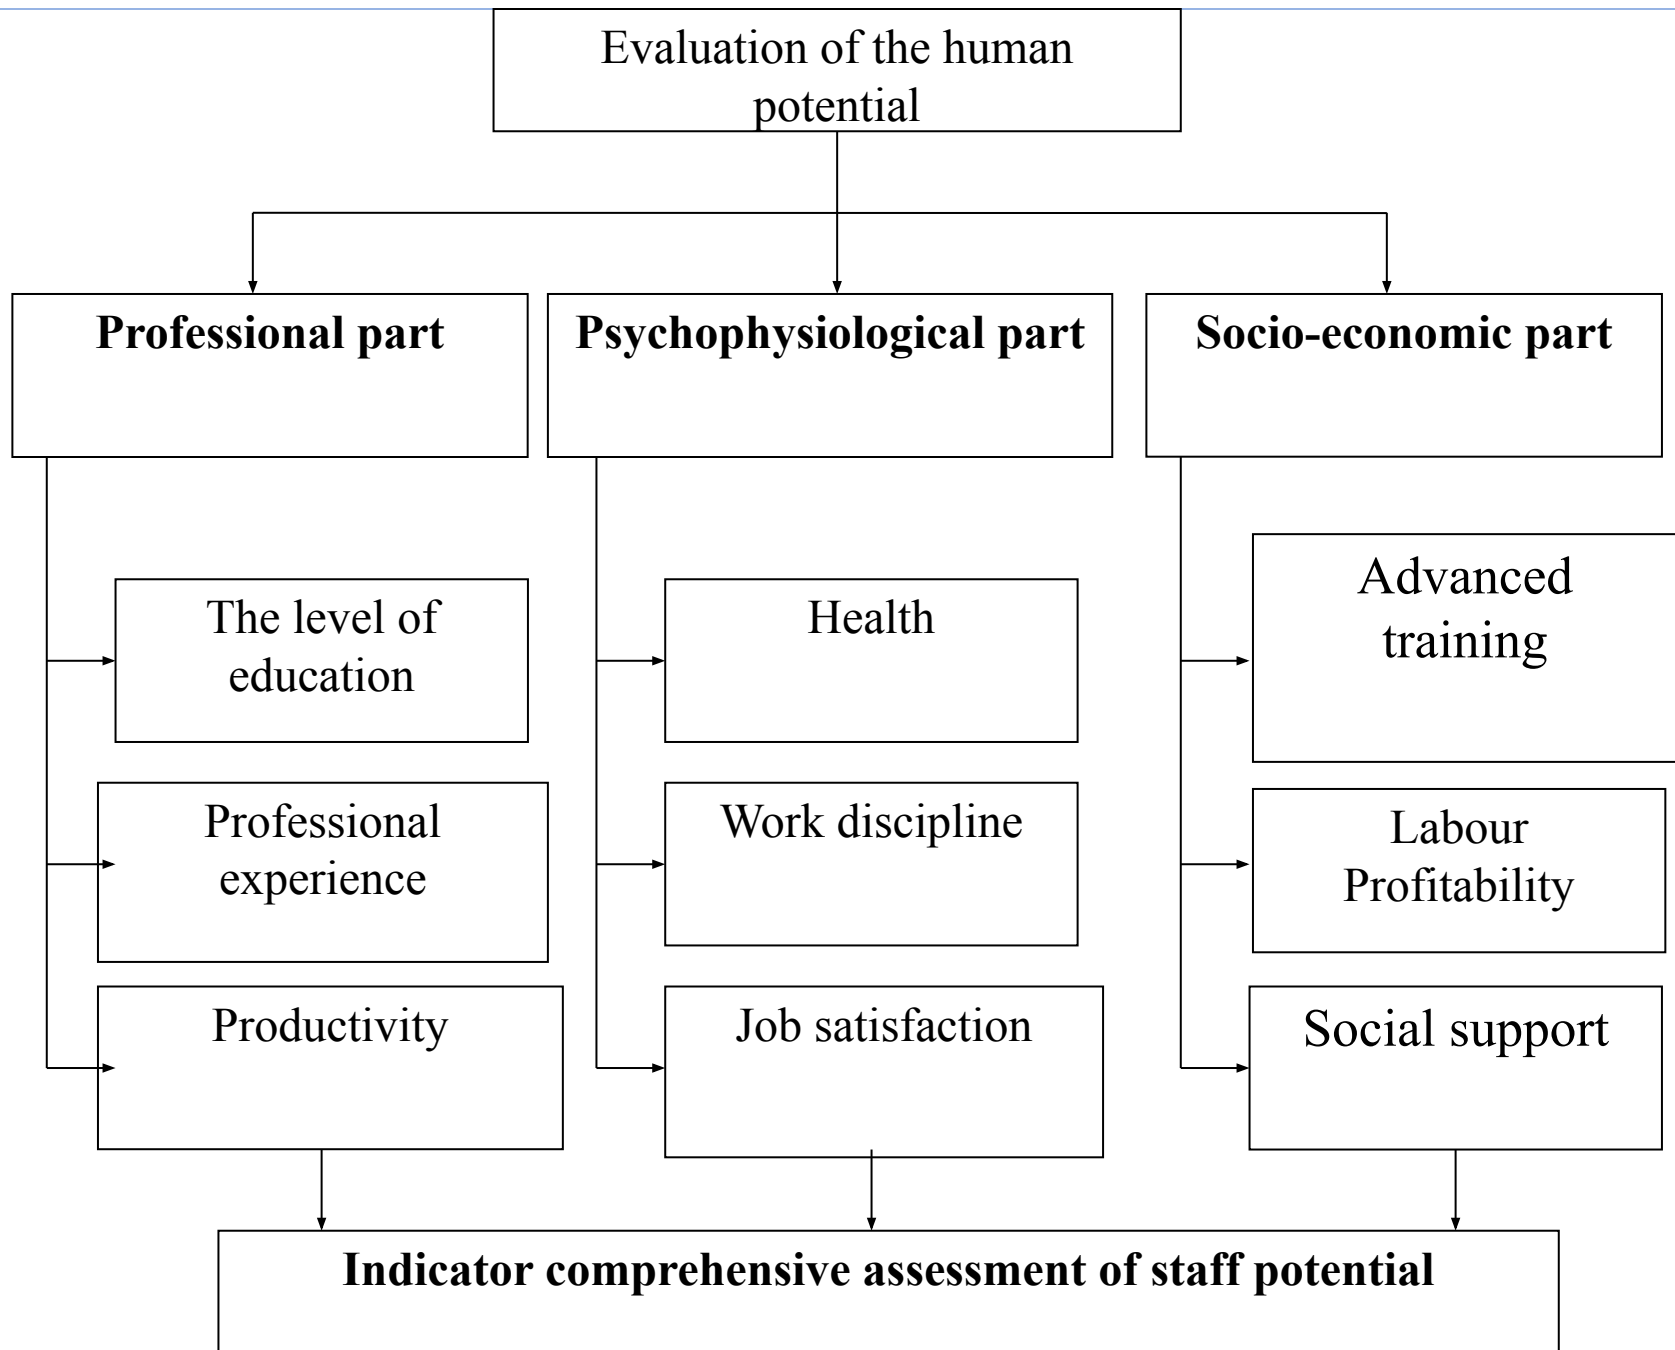

■ Стоимость выполненных СМР, тыс. руб.

Dynamics of the number of employees

The structure of employees by categories 2014

Evaluation of the human potential

Part	The sum of ranks	The reciprocal of the sum of the ranks	The coefficient of the weighting
1	13	0,0769	0,460
2	29	0,0345	0,207
3	18	0,0556	0,333
Sum	60	0,167	1

$$KP = \sum_{i,j} d_i \cdot \beta_j = 0,460 \cdot \beta_1 + 0,207 \cdot \beta_2 + 0,333 \cdot \beta_3$$

$$KP=0,9982+0,2484+0,31=1,5566$$
